Great Deal

Guess the words defined by the following clues. The answers vary in length from three to nine letters long and of these, five are capitalized. The punctuation in the clues may or may not help the solver.

Enter the answers in the grid one after the other starting in the top left corner and in the same order as the clues. Across words that don't end at the rightmost square of the row will continue on the leftmost square of the next row. Similarly, down words that do not end in the bottom square will continue at the top of the next column.

For five squares, involving twelve clue answers, you will need to cram more than one letter of those answer words into the square. In each case the square will then contain a complete word. In addition, five across words and five down words won't fit into the grid unless one of their letters is removed. These ten letters taken in order as they appear in the across and then the down answers will spell a phrase relating to those five squares.

Across

1. Trap, the king of Switzerland is followed by odd meek cat (9)
2. Accrue account is missing, klutzy oddly out of heartlessness (7)
