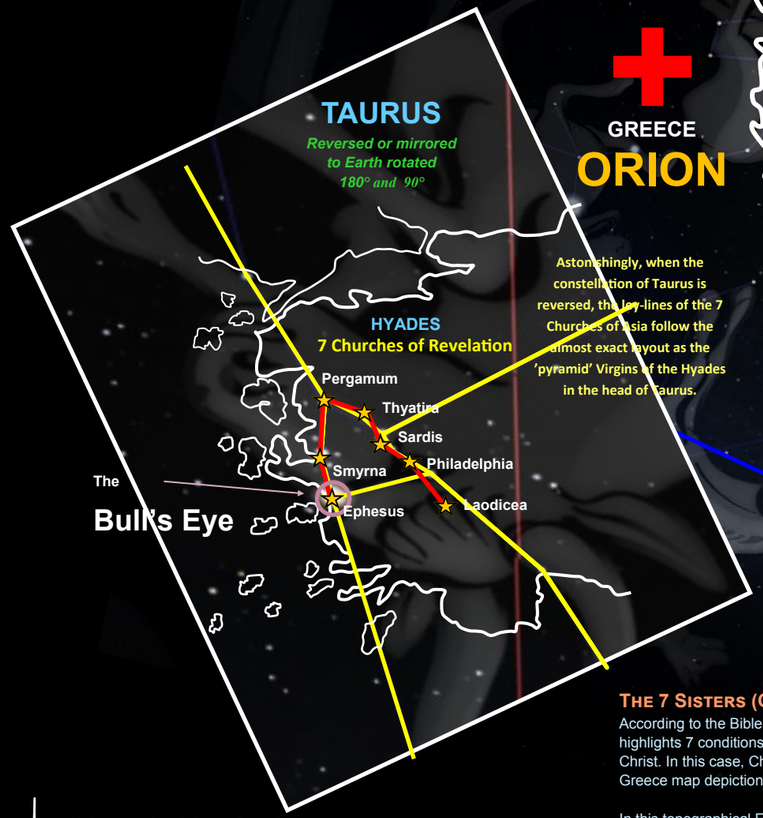
CELESTIAL CHURCH OF THE COSMOS I

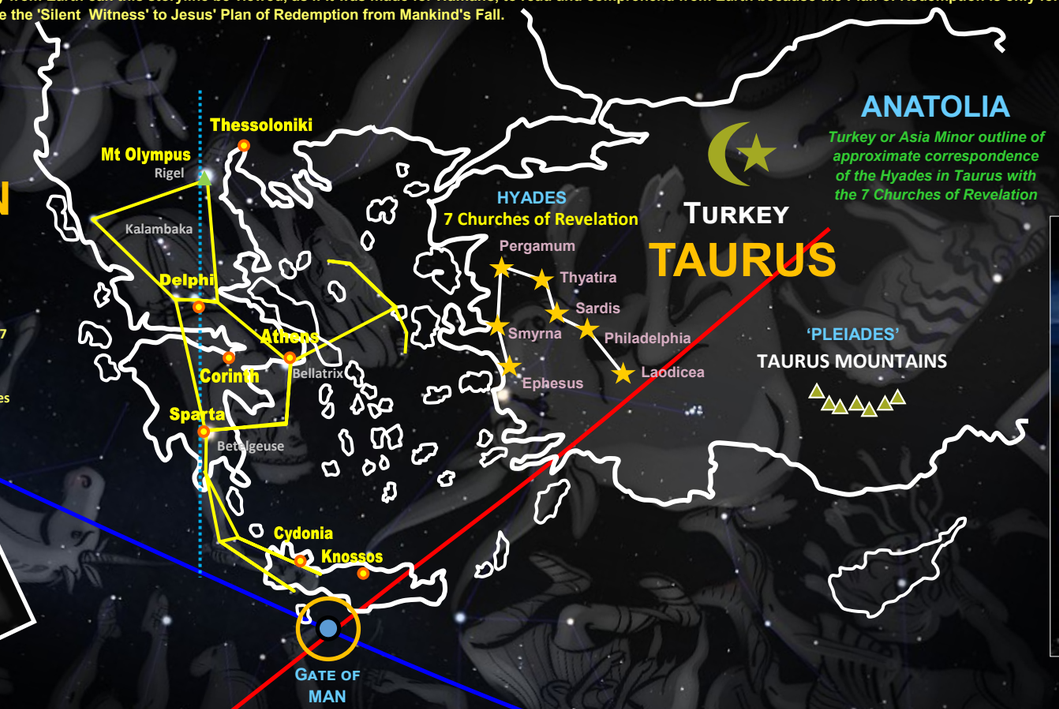
The purpose of this chart is to approximate the celestial correlation between the 7 Churches of Asia and the Pleiades in Taurus. The Zodiac or Mazzaroth will be plotted onto the Earth geographically to suggest that the Taurus-Orion constellations in the Heavenlies amazingly reflect the topographical configuration of Greece as Orion and Turkey as Taurus and its locality on Earth. The precise ancient locations to the 7 Churches of Asia correlate as the Hyades of Taurus. Amazingly, the Taurus Mountains thus correspond in relative distance as are the Pleiades in modern day Turkey to the Hyades of Taurus. The constellation Taurus with Pleiades mirrors its opposite geographic position with Pleiades as the 7 Churches adjacent the Taurus Mountains of Turkey. They are distanced apart in a similar pattern from the Taurus Mountains opposite their positions as are the Pleiades from the Head of Taurus. The 7 Churches of Asia from the book of Revelation are geographically in a 'V" shape like the horns of a Bull. This region is called the Hyades and is considered also a pyramid with the Church of Pergamum as the 'capstone'. This was the ancient 'Seat or Throne of Satan'.

The Witness of the Stars

The 12 constellations in the Heavens can be mapped out on Earth as they mirror their positions with key geographic latitudes and longitudes. Symbols and numbers play a significant role in all things spirituality as YHVH is the author of mathematics and design. Each Zodiac symbol has a meaning ascribed to the redemptive work of Christ. The constellations tell the story of the King, This King of the Cosmos is Jesus Christ. The Mazzaroth shows His 1st coming and His triumphant return. The story starts in Virgo and ends with Leo, thus a 'sphinx' duality in more ways than one. What is amazing is that only from Earth can this storyline be viewed, as if it was made for Humans, to read and comprehend from Earth because the Plan of Redemption is only for Humans, not Fallen Angels, Lucifer or 'Aliens'. As Paul states in the book of Romans, the Signs of the Zodiac are the 'Silent Witness' to Jesus' Plan of Redemption from Mankind's Fall.



Astonishingly, when the constellation of Taurus is reversed, the ley-lines of the 7 Churches of Asia follow the almost exact layout as the 'pyramid' Virgins of the Hyades in the head of Taurus.



When the topographical map of Greece is pegged to the Orion dimensions and it is approximated , Taurus produces the opposite rendition of the Hyades and location of the Pleiades.

THE PLEIADES

(A type of the Church-Bride of Christ)

The Mazzaroth

According to the research of E.W. Bullinger, the constellations proclaim the Plan of Man's Redemption through the main character, Jesus Christ. Each constellation is but a facet or 'angle' of an attribute and characteristic of the Messiah. Likewise, the configuration of the stars can be superimposed onto the Earth and many locations are specifically copied or mirrored as such.

The 7 Sisters (Churches)

According to the Bible, the Scriptures uses a metaphor for Believers and Followers of Jesus Christ, the Messiah as a Bride. He is presented as a 'Groom' that has redeemed or paid for a 'Wife'. In this case a 7-fold composition that highlights 7 conditions and time dispensations according to the book of Revelation and teachings by the Apostle Paul. Others ascribe, through mythology such similar associations with the Pleiades to the Church, as the Bride of Christ. In this case, Christ being 'Taurus' upholding and protecting her from His fierce Wrath. The 1st Church, Ephesus corresponds to the 'Eye of the Bull' or the Bull's Eye. It is also rather interesting that the arrow of Orion in the Greece map depiction points directly to the 'capstone' of the Church of Pergamum where the Seat of Satan once resided. The Gate of Man above the 'Blazing Torch' of Orion corresponds to the area of Knossos.

In this topographical Earthly reflection of the Cosmos, the Orion-Taurus configuration in the Heavenlies appears to reflect the nations of Greece and Turkey. Such a place is one of the frontlines of the current geopolitical battle of civilizations between Christianity and the West and Islam of the East. Specifically regarding Greece, if one draws a line vertically from Mt. Olympus, the intersecting points will be Delphi and Sparta. What is remarkable is that such a ley-line appears to match the constellation of Orion with the various prominent starts. Mt. Olympus corresponds to Rigel, the phallus of Orion corresponds to Kalambaka, Delphi corresponds to the Belt of Orion, Athens corresponds to Bellatrix and Sparta corresponds to Betelgeuse. Also the right arm extension of Orion appears to correlate to the Isle of Crete. Was is notable is that Crete is where the Knossos or the Gnostics come from and there is a place called Cydonia, as such as that of Mars.
