Continuing Education Requirements for Paramedics: Tracking Record

Maintain this personal record of CE hours to ensure recertification requirements are met and to help resolve discrepancies.

MA EMT card expires 4/1/2015: Track hours from January 1, 2013 through March 31, 2016*
MA EMT card expires 4/1/2016: Track hours from April 1, 2014 through March 31, 2016*

*Although the deadline is March 31; we STRONGLY recommend that you complete your courses and file applications by February 15 in order to receive your card by April 1. Waiting until 3/31 will delay the process and you will not be able to work as an EMT until your card is received.

Always request a "course completion certificate" for all courses you take outside your affiliated agency and give a copy to your Training Officer

Credit for online courses is limited to 1/3 of the total number of credits needed for recertification. Twenty (20) online credits can be used towards your recertification. Be sure to print a course completion certificate or save an electronic version.

Courses that are taken in a virtual classroom (an online learning, web-based environment where the teacher and students are logged into the virtual learning environment at the same time) are not considered "online" classes and do not count toward the 20 online credits.

When recertifying, Paramedics that are "Unaffiliated Region III" should enter their training information on the massemt.org website and email their course completion certificates to education@neems.org.
