CUTTING EDGE
ENVELOPE DIELINE
✓ Please follow the exact die lines. It is important to keep the scale at 100%
✓ It is essential that the grain run in the direction specified by Cutting Edge Envelope.
✓ The position of the envelope is critical to insure proper breakout in the die cutting process.
✓ Envelope machines cannot fold perfect borders or bleeds. Designs with bleeds must wrap 1/8" around to back.
✓ Mark your guide and gripper. Make sure stock is jogged. Print die marks.
✓ Knockout areas must be free of inks and varnishes, otherwise glue or gum may fail.
✓ We cannot guarantee envelopes if our die line is not followed.
✓ Cut marks must be printed on sheet.
✓ There may be a variance of 1/16" in any direction. This is industry standard.
✓ Please provide 10% or minimum of 1000 overs
