BURJ KALIFA ORION STARGATE 6

The purpose of this illustration is to suggest that the Burj Khalifa tower is orientated to correspond to Orion's Arrow. The assertion is that the Straits of Hormuz or Gate of Hormuz corresponds to the Silver Gate and thus the tower's color. This Gate is at the opposite end with the Golden Gate typology of the Straits of Gibraltar or the Pillars of Hercules. A ley-line can be drawn to these 'gates' that passes over Mt. Hermon at a 33 degree arc. The entire Middle East region centered on the Arabian Peninsula is suggested to be the place where the dimensions of Paradise or Eden once was. What is potentially spectacular is that the respective Gates are in phi ratio to the place that could potentially be the exact spot where even the Tree of Life was situated.

This same spot, between Jerusalem and the region of Eridu is also corresponding to the Orion Nebula region as the Orion constellation motif is superimposed onto this geographical region. The overall design that is suggested to also encompasses the Middle East is that of the Vesica Pisces that also is configured with the book of Revelation dimension of the New Jerusalem. The various angles of Orion's layout corresponds to some prominent places. The star Saiph corresponds to Jerusalem. The Pillars of Hercules are a type of Ophiuchus with the 2 parts of the Serpens on each side.

GOLDEN GATE

Entrance to Paradise

PILARES DE HÉRCULES

Type of 'Ophiuchus'

VESICA PISCES

Dubai to Mecca
= 1633.33 km
= 880 nautical miles
Dubai to Babylon
= 720 nautical miles
= 1333 km

THE GOLDEN RATIO

It is the 'Signature of the Creator'. It is seen in math, nature, the arts and the Human Form. It is when 2 quantities are in the golden ratio if the ratio of the sum of the quantities to the larger quantity is equal to the ratio of the larger quantity to the smaller one.

VESICA PISCES

666 Nautical Miles
From Temple of YHWH
Jerusalem to
Mt. Ararat & Mecca
1,234 Kilometers
767 miles @ 11°

88° degree rotation of constellation ORION. Vesica Pisces, adjusted for curvature of Earth

The star Rigel corresponds to Mecca. The 3 stars at Orion's Belt corresponds to Babylon, Ur and a place in Eridu that is undisclosed. The Arrow of Orion thus bisect the spot in Dubai where the Burj Khalifa tower is situated. The outline of the Orion constellation appears also to match the precise angle of the various ley-lines connecting the major centers of worship like Mecca, Jerusalem, Mt. Ararat, etc.
