3/22/2018--Plastic twist-top caps were collected to benefit a seriously ill 14 year old Pennsylvania girl who is in need of dialysis.

Liz,

Good afternoon. This afternoon, I mailed Kelly a carton (13 lb. 9.6 oz) of plastic bottle caps which should be delivered to her home on Monday, 3/26/18. This was a group effort to collect all of these caps. A "special thanks" goes out to these organizations: American Legion-Post 36, Holy Cross Coffee Club, Columbiettes and the Knights of Columbus.

Bob Yuzuik

Note: Caps were mailed to:

Kelly Flanagan
21 Doe Drive
Dallas, PA 18612

=====
Bob,

Our daughter, Kelly Hackett Flanagan, of Dallas, Pennsylvania, is collecting plastic twist-top caps like the ones on water bottles, power drinks, salad dressings, etc. until April 1 to benefit a seriously ill 14 year old Pennsylvania girl who is in need of dialysis for the rest of her life. Since she is 14 and a minor, we will not be given her name or any other information other than she lives in north eastern Pennsylvania. Every cap donated will get her one free minute of dialysis. The caps will be donated through the Pastor of the Back Mountain Harvest Assembly Church in Shavertown, Pennsylvania.

If you would like to take part in this act of kindness, please collect as many caps as you can and bring them to our house. If that's a problem, give us a call. We generally visit Kelly's family every other week so getting them to her is no problem.

Thank you so very much.

Liz and Paul Hackett
