

## Comprehensive ATM Solutions

eGlobal was founded 20 years ago and has grown to be one of the largest ATM providers in the United States with over 6,500 deployed units. eGlobal provides ATMs to a wide variety of industries, but they focus on the hospitality industry with over 1,000 ATMs operating in hotels.

eGlobal offers "turnkey" ATM services which means that they own, install and operate the ATM at no cost to the property. The only obligation is to provide a clearly visible location for the placement of the ATM and dedicated electrical power to that location. The property will receive a share of the revenue based on an agreed upon pricing table.

ATMs have a high fixed cost (the capital cost of the unit and monthly operating expenses) and therefore ATMs can be deployed at any location where they anticipate the transaction volume to exceed 150 transactions per month.
