# Our parking area might be used as a PSPS community resource center

Leaders at Craig Memorial Congregational Church have given permission for PG&E to use the church's parking lot, if needed, to provide support services to community members during the utility's Public Safety Power Shutoff (PSPS) events.

A PSPS could be called by PG&E in the interest of public safety if severe weather threatens a portion of the electrical system. During a PSPS the utility will turn off electricity.

During PSPS events in 2019, PG&E established community resource centers which provided Internet, bottled water, tables/chairs, toilets and handwashing stations, electrical service for battery backup and cell phone charging as well as heat (or cooling) to offset the weather conditions. Our church's parking lot may be the site for a community resource center for Paradise-area residents.

Pray for our nation.

## What about a new pastor?

Craig Memorial Congregational Church's Pastoral Search Committee continues its work to find an interim pastor and/or a "permanent" pastor. The group meets at least once a month and will keep members informed of their progress.
