## HEP1 and HEP 2

- 1. What are the 2 main categories of the HEP virus?
  - A. Internal and external
  - B. Acquired and transferred
  - C. Noninfectious and infectious
  - D. It's all the same
- 2. The HEP virus attacks what organ?
  - a. the stomach
  - b. the kidney
  - c. spleen
  - d. liver
- 3. Alcoholic HEP falls under the category?
  - a. infectious
  - b. toxic
  - c. habitual
  - d. all of them
- 4. When you take a drug and it passes through the liver first it is termed
  - a. first pass effect
  - b. bypass effect
  - c. digestion
  - d. detoxication effect
- 5. Severe scarring of the liver is termed
  - a. scabbing
  - b. fibrosis
  - c. Cirrhosis
  - d. none of these
- 6. When the liver is combating the virus and you have no symptoms this is termed
  - a. compensated
  - b. decompensated
  - c. steady state
  - d. homeostasis
- 7. Steatosis is
  - a. fatty deposits in the liver
  - b. stationary
  - c. infected
  - d. healthy liver

8. How many types of HEPV did Dr. Hawley mention?
a. 2
b. 5
c. 3
d. 4
9. Which type of HEP did Dr. H. talk about the most (it is a slow acting one effecting Americans)
a. A
b. D c. E
E. B
10. What is one of the major issues with people effected with HEP virus?
a. it is all non -treatable
<ul><li>b. most are unaware they even have it</li><li>c. it is mostly found in North America</li></ul>
d. most intentionally spread it
11. What is 1 way of contracting HEPC?
What is 1 way of contracting HEPC?     a. organ transplant
<ul><li>a. organ transplant</li><li>b. massage</li></ul>
<ul><li>a. organ transplant</li><li>b. massage</li><li>c. hugging</li></ul>
<ul><li>a. organ transplant</li><li>b. massage</li><li>c. hugging</li><li>d. touching</li></ul>
<ul> <li>a. organ transplant</li> <li>b. massage</li> <li>c. hugging</li> <li>d. touching</li> </ul> 12. What type of massage guidelines did Dr. H. mention?
<ul><li>a. organ transplant</li><li>b. massage</li><li>c. hugging</li><li>d. touching</li></ul>
<ul> <li>a. organ transplant</li> <li>b. massage</li> <li>c. hugging</li> <li>d. touching</li> </ul> 12. What type of massage guidelines did Dr. H. mention? <ul> <li>a. deep tissue 45 min</li> <li>b. hot stone</li> <li>c. light touch and only 30 min</li> </ul>
<ul> <li>a. organ transplant</li> <li>b. massage</li> <li>c. hugging</li> <li>d. touching</li> </ul> 12. What type of massage guidelines did Dr. H. mention? <ul> <li>a. deep tissue 45 min</li> <li>b. hot stone</li> </ul>
<ul> <li>a. organ transplant</li> <li>b. massage</li> <li>c. hugging</li> <li>d. touching</li> </ul> 12. What type of massage guidelines did Dr. H. mention? <ul> <li>a. deep tissue 45 min</li> <li>b. hot stone</li> <li>c. light touch and only 30 min</li> </ul>
<ul> <li>a. organ transplant</li> <li>b. massage</li> <li>c. hugging</li> <li>d. touching</li> <li>12. What type of massage guidelines did Dr. H. mention?</li> <li>a. deep tissue 45 min</li> <li>b. hot stone</li> <li>c. light touch and only 30 min</li> <li>d. work the abdomen really hard</li> <li>13. What is it called when there is a "yellowing" of skin and eyes?</li> <li>a. Pale-facing</li> </ul>
<ul> <li>a. organ transplant</li> <li>b. massage</li> <li>c. hugging</li> <li>d. touching</li> <li>12. What type of massage guidelines did Dr. H. mention?</li> <li>a. deep tissue 45 min</li> <li>b. hot stone</li> <li>c. light touch and only 30 min</li> <li>d. work the abdomen really hard</li> <li>13. What is it called when there is a "yellowing" of skin and eyes?</li> <li>a. Pale-facing</li> <li>b. jaundice</li> </ul>
<ul> <li>a. organ transplant</li> <li>b. massage</li> <li>c. hugging</li> <li>d. touching</li> <li>12. What type of massage guidelines did Dr. H. mention?</li> <li>a. deep tissue 45 min</li> <li>b. hot stone</li> <li>c. light touch and only 30 min</li> <li>d. work the abdomen really hard</li> <li>13. What is it called when there is a "yellowing" of skin and eyes?</li> <li>a. Pale-facing</li> </ul>

- 14. The liver can regenerate itself from only what percentage left
  - a. 60%
  - b. 25%
  - c. 5%
  - d. the liver cannot regenerate
- 15. We are now looking at targeting treatments to specific types of HEPV based on individual profiles and populations this is called?
  - a. shotgun approach
  - b. genotyping
  - c. broad spectrum
  - d. there is no meds for this
- 16. Symptoms of most HEP virus show up
  - a. Immediately
  - b. there are no symptoms
  - c. a few weeks to a few months depending on the type
  - d. at first contact
- 17. One of the best practices to adopt in prevention is?
  - a. Universal precautions
  - b. exercising
  - c. vacuuming the floors
  - d. changing sheets e/o client
