IMMEDIATE RASH  
RECOVERY

IMMEDIATE RASH RECOVERY is a smooth and GREEN formulation for the treatment of skin rashes. It provides immediate recovery exerting a lenitive and emollient effect.

From Indena, it contains:

BOSEXIL™: anti-inflammatory active ingredient from *Boswellia serrata* in Phytosome® form, provides a lenitive and soothing effect on irritated skin.

OMEGABLUE®: unique oil obtained from the seeds of *Vaccinium myrtillus* L., rich in polyunsaturated fatty acids, it has important lenitive properties on damaged and irritated skin.

ZANTHALENE®: lenitive and soothing, Zanthalene® contains specific molecules providing an immediate reduction of itch and skin discomfort of various origin.

The formulation is devoid of perfume. The pleasant perceivable note is due to the content of Zanthalene®, which adds a characteristic fragrance to perfume-free formulations.
