

PAR is proud to offer an extensive ecosystem of integration partners to complement our Brink POS Solution.

As customer needs change, restaurant operators are continuing to enhance and expand their customer interaction capabilities to adapt to the evolving dining environment. By working closely with these partners, PAR can provide innovative solutions to customers' business needs while improving customer support and reducing the total cost of ownership of your solution.

Brink POS is a Cloud-Based solution with a rapidly expanding list of interfaces to enhance your restaurant operations. Our current list of integration partners cover expanded payment capabilities, mobile/online ordering, loyalty, above store reporting, inventory, accounting, payroll and more.
