INNOVA ECO BUILDING SYSTEM

**Participate in our
Builders & Developers
Challenge**

Made in
USA

Why should you take the Challenge?

- ✓ **Best in class**, next Generation of SIP (Structural Insulated Panels) using MGO (Magnesium Oxide Board)
- ✓ **More economical** than traditional methods of erecting buildings.
- ✓ **+/-60% Faster** to complete buildings than the traditional approach.
- ✓ Significantly **reduces operating costs** of any building, which creates value and **additional borrowing capacity**.
- ✓ The end product is much **more durable** and of higher quality than traditional products in the same price range.
- ✓ Ecological and Environmentally approved product which **improves air quality** of any building, making it healthier for its occupants.
- ✓ Structural up to 4 floors.
- ✓ **Proven and tested** by the toughest code in the USA.
- ✓ **Hurricane Resistant***
- ✓ **Fire Resistant***
- ✓ **Sound Resistant***
- ✓ **Water Resistant***
- ✓ **Bug Resistant* material.**
- ✓ **Mold Resistant***
- ✓ **Eco friendly**, which enables customers to possibly **qualify for grants** and other benefits by using this green certified product line.
- ✓ Adapt it to **any model**.
- ✓ Home **value is higher**
- ✓ Great **Marketing Value**
- ✓ **Sell more** and faster
- ✓ **Less labor** intensive

Subject to terms and conditions of the challenge.
