

## Color Correction and Fixing

Use the How to Correct Color to adjust the 2 images found here to change the images to look better.

1. Create color and black and white versions of each.
2. Save all 4 images named **LastnameFirstnameColorCorrect**, name each file LastnameFirstnameColorCorrect (BW1 or Color2).

Next adjust the image to improve the person's looks in the photo below

1. Use the [How to Fix Images](#) file to do this.
2. Save the final image and name it LastnameFirstnameFixedImage1 (or2).

## Color Correction and Fixing

This technique is used ALL of the time in magazines and websites. Check out the image below to see what I am talking about:
