

Expanding the Line in 5" Fascia

All New from RollEase:
R-Series and Motorized 5" Fascia—for commercial and residential.

Now Available to Order:
Go to www.rollease.com for more information or call 800-552-5100 to place an order.

Our new Fascia 5" System: So modular, it accommodates two shades at the same time.

A brand new option for both roller and motorized shades. Our new 5" Fascia system is easily configured for single or dual shades—and now you can even use it with ST50 and LT50 motors in motorized shades. This versatility makes it ideal for large projects where you need to "go wide," such as in office buildings, hotels and schools.

We also know full compatibility is key. The new 5" Fascia system is compatible with our existing fascia panels, end caps and base brackets—making for less inventory when you use both the R-series and Skyline components.

With a clean design and simple assembly, you'll find that the Fascia 5" System is an elegant solution for large spaces.

FEATURES & BENEFITS

Easy Assembly

- Compatible with existing Fascia Panel, End Caps, and Base Brackets
- Less inventory when using both R-Series and Skyline components
- Available in 16' lengths

- No need to cut a notch for chain pass-through
- Inserts easily snap into base brackets
- Available in White, Bronze and Anodized

More Applications

- Perfect for large shades and commercial applications
- Options for Single, Dual & Motorized Shades
- Elegant design
- More options to cover roller shades
- Ideal for large applications in homes, stores, restaurants and schools

**Versatility and compatibility.
For you: less inventory to carry.**
