

NCRTAC

Out of Hospital Committee

12/22/2022

Chair: Dr. Michael Clark

Recorder: Michael Fraley

Present: Del Horn, Linda Vollmar, Kelly Bremmer, Savanna Craig, Ken Marg, Jason Joling

Patient Tracking	<p>Discussed that the Juvare Wisconsin Patient Tracking tool is now available and ready for implementation by services. Demonstrations and trainings can be set up.</p> <p>Dr. Clark discussed how the system will be used at the U.S. Senior Open golf tournament in Stevens Point July 2023.</p> <p>Contact Michael, Dr. Clark or Katherine Johnson (<a href="mailto:DHSEMSystems@dhs.wisconsin.gov">DHSEMSystems@dhs.wisconsin.gov</a>) for more information.</p>
MIST	<p>Michael reviewed the MIST radio/phone report tool that the committee developed in the past. Michael is working on an update of the hospital list on the back.</p> <p>Potential project for the committee: promote use of MIST</p>
Scene time PI monitor	<p>Michael discussed the trauma registry PI indicator of EMS scene time. Committee has discussed this in the past. It remains on the list of PI indicators the state encouraged RTACs to monitor.</p> <p>Potential project for the committee: identify ways to achieve a trend of shorter scene times for EMS.</p>
Ryan White Act	<p>Dr. Clark discussed the basic points of the Ryan White Act and that sometimes, hospitals may not be up to speed on the procedure.</p> <p>Potential project for committee: educate EMS agencies on the Act and promote working with hospitals to avoid gaps in the procedure.</p>
MCI Plan	<p>Dr. Clark reviewed the basic points of the Wisconsin template MCI plan that is going through update through the DHS OPEHC office. Watch for a comment period.</p>

	Jason Joling discussed his efforts to work with his local hospital to make sure the “base hospital” concept will be a reality when an event occurs.
