

Future Site Building Land Purchase

The Board of Trustees of St. Anthony School is pleased to announce the purchase of the property adjacent to St. Rita's parish (next to Hal Mack Field).

A few years ago we purchased the 1.3 acres on the other side of this parcel, so with this new acquisition we will have approximately 2.5 acres to build a new facility.

Our vision is to build a gymnasium with classrooms, a cafeteria and offices, so that we have a high quality campus to match St. Anthony's excellent education.

We invite you to join in our capital campaign by donating, volunteering to raise funds, and by praying for a successful campaign.

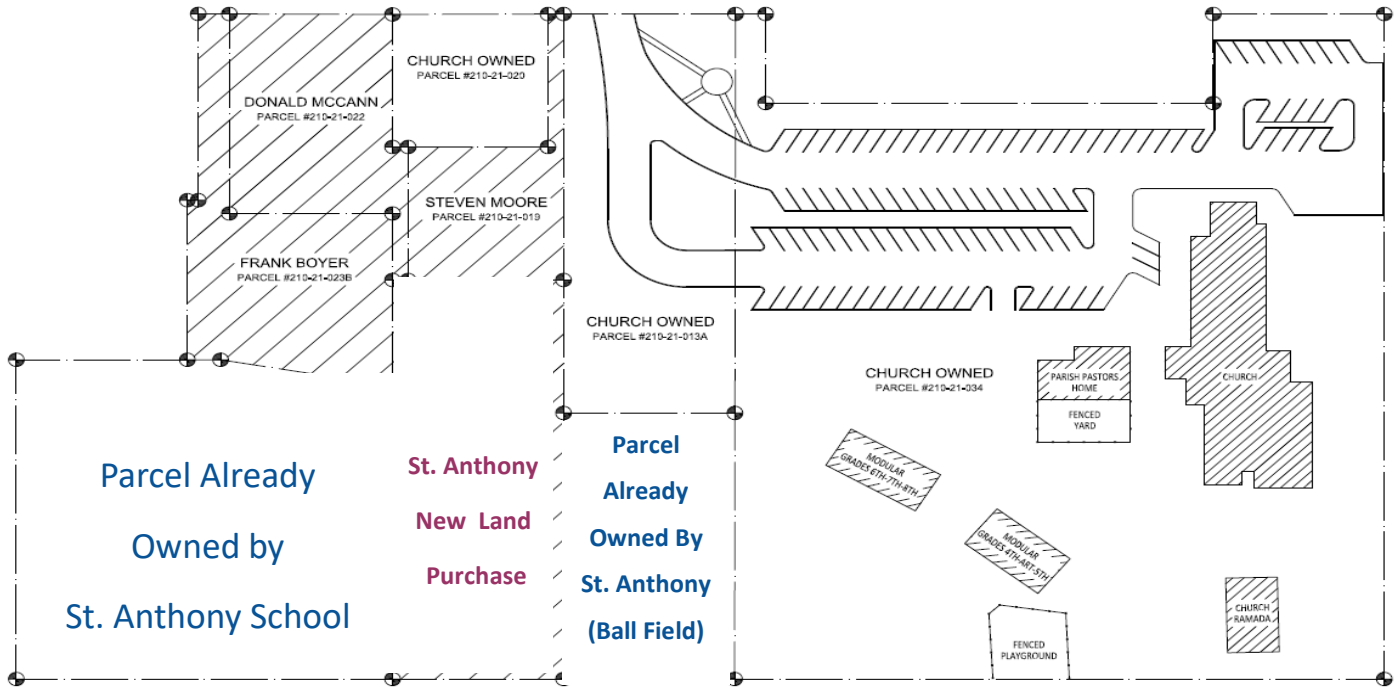

Please contact Mr. Yorksmith or a Board member to see how you can get involved! This is an exciting time for St. Anthony's and we hope that entire school community will join forces to make this worthy project a success!

Soon we will be making more announcements about the campaign and how you can become involved. Thank you for being an important part of this wonderful community at St. Anthony's.
