Signed: (Employer)	<i>Sarjeet Singh Gill</i>	Date: 19/05/2018
Subject to review, monitoring and revision by:	S Singh Gill	Every: 12 months or sooner if work activity changes

Risk assessment

Employers with five or more employees must have a written health and safety policy and risk assessment.

For further information and to view our example health and safety policy go to www.hse.gov.uk/risk

Combined risk assessment and policy template published by the Health and Safety Executive 09/09

All employers must conduct a risk assessment. Employers with five or more employees have to record the significant findings of their risk assessment.

We have started off the risk assessment for you by including a sample entry for a common hazard to illustrate what is expected (the sample entry is taken from an office-based business).

Look at how this might apply to your business, continue by identifying the hazards that are the real priorities in your case and complete the table to suit.

You can print and save this template so you can easily review and update the information as and when required. You may find our example risk assessments a useful guide (www.hse.gov.uk/risk/casestudies). Simply choose the example closest to your business.

Company name: ATN (Southall Site)

What are the hazards?	Who might be harmed and how?	What are you already doing?	What further action is necessary?	Action by who?	Action by when?	Done
Slips and trips	Staff and visitors may be injured if they trip over objects or slip on spillages.	General good housekeeping. All areas well lit, including stairs. No trailing leads or cables. Staff keep work areas clear, e.g. no boxes left in walkways, deliveries stored immediately, offices cleaned each evening	Better housekeeping needed in staff kitchen, e.g. on spills.	All staff, supervisor to monitor.	01/10/2010	01/10/10

Fire	Staff and visitors may be harmed as result of smoke inhalation and they may suffer from burns.	<p>Appropriate extinguishers are provided, correctly positioned and maintained yearly. Staff designated to fight fires have been instructed, trained and are given follow-up training. New members of staff are inducted in fire safety procedures. Clear evacuation procedures and posters are displayed. Customers/learners and visitors are inducted on fire evacuation procedures when they first enrol/visit the centre. Fire drills are conducted quarterly.</p> <p>Smoke detectors are placed in each room and in corridors. The Fire Alarm is located centrally at the site and is connected to local fire station in the event of fire. Appropriate break glass units are positioned in the building to raise the alarm.</p> <p>Monitoring, recording and amending where necessary policies and procedures on a yearly basis.</p>	<p>Continue checking electrically operated smoke detection devices with one central buzzer regularly on a weekly basis. Continue to induct new employees and new learners as and when required. Ensure Quarterly drills are undertaken and have a comprehensive understanding of the fire evacuation procedures. Continue monitoring fire escape routes on a regular daily basis to ensure that they are free of obstructions.</p> <p>Continue monitoring, recording and amending where necessary policies and procedures on a yearly basis.</p>	<p>Kamaljit Kaur Gaurav Sharma Karan Moheeputh All tutors</p> <p>Sarjeet Singh Gill.</p>	On-going	On-going
Electrocution	Staff and users/learners due to electrical failure or if any leads left out without trucking.	The statutory annual PAT testing of electrical equipment. Advice at induction and intermittently during lessons on issues of electrical safety and how to react in a case of electrocution. Reminder posters. Weekly checks of equipment for damaged insulation. Try to get as much wiring as possible concealed in trucking.	<p>Training for staff on how to deal with electrocution.</p> <p>Periodic PAT testing</p>	<p>Gaurav Sharma</p> <p>Manpreet Shinhmar</p>	On-going	On-going
Stress due to work type/load, anxiety about new technology, etc.	Staff and users/learners especially if the person has already been through trauma.	Advice at induction and intermittently in lessons asking users to alert tutors or line managers if they get aches or pains or feel under undue stress. Reminder posters.	New staff members are inducted by the manager; tutors are advised and asked to issue advice to learners at induction and provide regular reminders.	<p>Kamaljit Kaur Jojoy Varghese All tutors</p>	On-going	On-going
An accident due to the arrangement of the workstations.	Staff and users/learners may be affected in the process of arrangement of workshop	Advice at induction to the learners and intermittently during lessons	Tutors advised by Kamaljit and Jojoy who are then requested to issue advice at induction to learners. Regular reminders given to learners at various points in their programme.	<p>Kamaljit Kaur Jojoy Varghese All tutors</p>	On-going	On-going
Computer workstation ergonomics, poor posture, discomfort and headaches.	Mostly will affect the staff and users/learners using the computers if the VDU is not bright enough, if non-adjustable computer chairs are provided to the staff and users/learners. It could result in minor discomfort or severe pain.	Instruct staff and learners in chair and workstation adjustment. Ask tutors/users to report problems with furniture, screen glare, poor image quality, etc. Ensure the room blinds are in good working order. Take regular short breaks resting or working on other types of activity.	Refresher training is provided to the staff as and when required.	<p>Manpreet Shinhmar All Tutors</p>	On-going	On-going

Hazardous substances.	Staff and learners would be affected which may cause dermatological allergic reaction in some cases	Keeping such materials in a locked cupboard away from the learners and instruct all likely users in their use.	Providing instructions in cleaning of cleaning equipment and following manufacturer's instructions	All tutors Cleaners	On-going	On-going
Injury caused by the manual handling of heavy loads.	The staff would be most at risk if stationary, office furniture or computers needed moving which lead to serious back injury.	Training and appropriate resources including diagrammatic illustrations are provided to staff in safe manual handling techniques and in moving heavy loads.	Continue to provide training and refresher sessions as appropriate.	Gaurav Sharma	On-going	On-going
Obstacles in corridors, causing obstructions to the free flowing movement of people around the building.	The staff, learners and visitors would be affected which would result to physical injuries.	Ensuring that the items are not stored in corridors and passageways, find a safe place to keep them even if it is only for a short period.	Continue to advise staff and learners on a regular basis not to leave any obstructions along the walking pathways in the building to ensure free flowing and safe movement of people around the premises.	Kamaljit Kaur Sarjeet Singh Gill Gaurav Sharma	On-going	On-going
Locked fire escapes.	The staff, learners and visitors will be harmed resulting in a loss of life.	A procedure is maintained to ensure all marked fire escapes are unlocked when the building is occupied with people and ensure no obstruction is kept along the fire escape routes.	Refresher training is provide to staff members at regular intervals to carry out the unlocking (and locking when the building is vacated) when the nominated person is away for any reason.	Kamaljit Kaur Gaurav Sharma	On-going	On-going
Lone working	Staff members may be harmed in case of relevant emergency.	Ensure that at least two members of staff are on duty at any given time. Staff have been inducted on the procedures for contacting the relevant emergency, Fire, Police and Ambulance in case of an emergency situation	. N/A	Sarjeet Singh Gill Kamaljit Kaur	On-going	On-going

Assessment review date: 01 04 2019 (usually within one year, or earlier if working habits or conditions change)
