The GT 2000 motorcycle trailer, with its innovative engineering and elegant styling is easy to operate and a dream to tow. One person can easily load any two motorcycles or a trike on this trailer safely and quickly. No dangerous ramps or fighting to balance motorcycles in a precarious position while trying to strap them down. Just tilt the trailer to the ground, ride the bikes or trike into the built in LA Chock and it is automatically held securely upright. Crank the winch until the trailer is level and pin off the lift frame. Straps are only required on the rear of the motorcycle or Trike to provide a secure towing package
