

### **Bolder Advanced Portfolio**

Choose your color! Dimensional Blonde, Red, Brunette, or Vivid for your model or mannequin and you will get hands-on under my direction and supervision. No flat colors for this workshop! This session will end with pictures I have taken of your work. I will professionally edit these photos and send them to you for your portfolio.

Your portfolio pictures will represent three different styles: sleek, wavy, and an upstyle. You will have original size, edited photos, and some will be collaged and fonted for you.

Your model will display a beautiful cut and color in a professional format that will set you apart from other stylists. This will help to put you in a position for better opportunities with clients and salons.
