CALIFORNIA LEGISLATURE-2023-24 REGULAR SESSION

# **ASSEMBLY BILL**

**No. 460** 

## Introduced by Assembly Member Bauer-Kahan (Principal coauthor: Assembly Member Friedman)

February 6, 2023

An act to amend Sections 1055, 1055.2, 1126, and 1846 of, to add Sections 1051.2 and 1055.5 to, and to add Chapter 3.6 (commencing with Section 1115) to Part 1 of Division 2 of the Water Code, relating to water.

### LEGISLATIVE COUNSEL'S DIGEST

AB 460, as amended, Bauer-Kahan. State Water Resources Control Board: water rights and usage: interim relief: procedures.

(1) Existing law authorizes the State Water Resources Control Board to investigate all streams, stream systems, lakes, or other bodies of water, take testimony relating to the rights to water or the use of water, and ascertain whether water filed upon or attempted to be appropriated is appropriated under the laws of the state. Existing law requires the board to take appropriate actions to prevent waste or the unreasonable use of water.

This bill would authorize the board, in conducting specified investigations or proceedings to inspect the property or facilities of a person or entity, as specified. The bill would authorize the board, if consent is denied for an inspection, to obtain an inspection warrant, as specified, or in the event of an emergency affecting public health and

safety, to conduct an inspection without consent or a warrant. Because the willful refusal of an inspection lawfully authorized by an inspection warrant is a misdemeanor, this bill would impose a state-mandated local program by expanding the application of a crime.

(2) Existing law authorizes the executive director of the board to issue a complaint to any person or entity on which administrative civil liability may be imposed pursuant to specified law, and requires the complaint to be served by personal notice or certified mail.

This bill would expand methods of notice for those purposes to include notice in accordance with the manner of service of a summons under specified provisions of the Code of Civil Procedure.

(3) Under existing law, the diversion or use of water other than as authorized by specified provisions of law is a trespass, subject to specified civil liability.

This bill would require the State Water Resources Control Board to adjust for inflation, by January 1 of each year, beginning in 2025, the amounts of civil and administrative liabilities or penalties imposed by the board in water right actions, as specified.

(4) The California Constitution requires the reasonable and beneficial use of water. Under the public trust doctrine, the State Water Resources Control Board, among other state agencies, is required to take the public trust into account in the planning and allocation of water resources and to protect the public trust whenever feasible. The board and the California regional water quality control boards are required to set forth water quality objectives in state and regional water quality control plans. Existing law establishes the Water Rights Fund, which consists of various fees and penalties. The moneys in the Water Rights Fund are available upon appropriation by the Legislature for the administration of the board's water rights program.

Existing law requires that the owner of any dam allow sufficient water at all times to pass through a fishway, or in the absence of a fishway, allow sufficient water to pass over, around, or through the dam, to keep in good condition any fish that may be planted or exist below the dam, as specified.

This bill would authorize the board to issue, on its own motion or upon the petition of an interested party, an interim relief order to a diverter or user of water in adjudicative proceedings to apply or enforce specified provisions of law related to water rights and quality. The bill would provide that a person or entity that violates any interim relief order issued by the board would be liable to the board for a civil penalty

in an amount not to exceed the sum of \$10,000 for each day in which a violation occurs and \$2,500 for each acre-foot of water diverted in violation of the interim relief order. The bill would require these funds to be deposited in the Water Rights Fund. The bill would make these provisions operative on January 1, 2025.

(5) Existing law authorizes any party aggrieved by any decision or order of the State Water Resources Control Board, not later than 30 days from the date of final action by the board, to file a petition for a writ of mandate for judicial review of the decision or order. Existing law requires a court to exercise its independent judgment on the evidence in any case involving the judicial review of certain cease and desist orders issued by the board and in any other case in which the court is authorized by law to exercise its independent judgment on the evidence.

This bill would require an aggrieved party to file a petition for reconsideration with the board to exhaust the party's administrative remedies before filing an action for judicial review of the board's decision or order under specified circumstances. The bill would require the scope of review of a board decision or order regarding interim relief to be the same as for a court of appeal review of a superior court decision granting or denying a preliminary injunction. The bill would generally prohibit, except as provided, a legal or equitable process from issuing in any proceeding in a court against the board or an officer of the board to review, prevent, or enjoin certain adjudicative proceedings or a decision or order of the board before a final decision or order of the board is issued.

(6) Existing law authorizes a person or entity in violation of a term or condition of a permit, license, certificate, or registration issued by, or an order or regulation adopted by, the board to be held civilly liable for an amount not to exceed \$500 for each day that the violation occurs.

The bill would increase the amount of civil liability for the above-described violations to \$1,500 for each day in which the violation occurs, \$10,000 for each day in which the violation occurs, and \$2,500 for each acre-foot of water diverted or used that amounted to the violation.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: yes.
