

January 04, 2016

Hi All,

Not too much has happened over the Christmas and New Year period but there are a few points to mention.

Letter to MARC Garneau, Minister of Transport

We have not, as yet, had a response to the letter to Marc Garneau and do not expect one for a while. As soon as there is a response I will advise you and post the response on our website.

RANGO Executive

We have posted the names and functions of the Executive, together with brief biographical details, on the website under "About Us".

Community Environment and Noise Advisory Committee (CENAC)

The next meeting of CENAC is 24 February 2016. The minutes of the previous meeting, 2 December 2015, have yet to be posted. The GTAA habit appears to be to post these minutes a day or two before the next meeting. I will make sure that we attend the meeting on 24th February.

CENAC Board Member for Halton Region

We have written to Mr. Brian Herner, the Halton Region representative on the Board to ask for a meeting to discuss our concerns and discover how these can be effectively presented to the Board. When we have a substantive reply we will post the letter and the response on the website.

Tracking Flight Movements

For those of you who track some of the flight movements, do not forget that there are three sites which all provide slightly different information. We are trying to improve the information provided on the Pearson WebTrak by persistent suggestions at the CENAC meetings and direct contact with the GTAA staff:

FlightAware: www.flightaware.com

Flightradar 24: www.flightradar24.com

WebTrak: www.torontopearson.com/webtrak

Wishing You All a Successful, Prosperous and Happy 2016.

Richard Slatter

President, RANGO
