I am Dr. Sheetal Badami, director of Slim Express Clinics in India. I have worked with Dr Xanya (Polyxeni) Sofra , PHD , in her capacity as Director of Research and Training for Ion Genius .

I have enjoyed a professional relationship with Dr Sofra, using technology from her company which has helped numerous clients achieve their goals of fat reduction & healthy weight loss along with excellent development of musculature. We have documented loss in subcutaneous & viscera fat of many of our patients. We have also reported & documented resolution of fatty liver on Sonography in our patients & also documented improvement in Insulin Resistance. Many patients have reported significant reduction in back pain, knee pain & shoulder pain and also improvement in muscular strength.

Dr Sofra did research in cellular regeneration Neuro signaling in London University where she first conceptualized the significance of cellular signaling. She found that aged cells transmitted no signals and that you can identify aged cells from the conspicuous absence of signals. Dr Sofra's research has been the cornerstone of the development of the IELLIOS anti-aging technology that is now used by a number of doctors to enhance skin regeneration and rejuvenation.

I have found Dr Sofra to be an honest , intelligent , reliable professional , hard working , and someone I would recommend as an asset to any community.

我是曾与 Polyxeni Sofra 教授工作的印度 Slim Express Clinics 的 Sheetal Badami 教授兼公司董事，Polyxeni Sofra 是 Ion Genius 公司的研究与培训总监。

我很高兴能与 Sofra 教授保持良好的专业合作关系，采用 Sofra 公司的专利技术以让我司无数的客户达成他们健康消脂、减肥及肌肉组织良好发展的目标。我们记录到在使用 Sofra 公司的技术后，许多我们的客户其皮下和体内脂肪明显减少，在超声波显示下脂肪肝及胰岛素抗体的重大改善，且许多客户反映他们的背部/膝盖/肩膀疼痛及肌肉强度有明显改善。

Sofra 教授在伦敦大学做了相关细胞再生神经信号传导的研究，在那里她第一次提出并构思细胞信号传导的重要意义。她发现衰老细胞不会传输任何信号，借此通过缺乏信号的细胞我们就可以鉴别其为衰老细胞。Sofra 教授的研究是 IELLIOS 抗衰老技术发展的基石，此技术在皮肤重新及修复领域已被无数医生采用并接受。

总括来说，Sofra 教授是一个诚实、智慧型、可靠的、努力工作刻苦的专业人才，她将会是任何一个工作团体的宝贵财产。
