6th Annual Golf Tournament Fundraiser for Matthew

Sunday, October 18, 2015 • Timacuan Golf Club, Lake Mary, Florida • 407-321-0010

MATTHEW'S STORY

Matthew Walker is the son of Jonathan & Cynthia Walker of Heathrow, Florida. He is one of three children, Morgan who is 12 years old & Adam 7 years old. Matthew is a 9 year old who is 1 of approximately 35 known males in the world born with a rare neuronal migration disorder of the brain called Subcortical Band Heterotopia. This disorder is one in which the white and grey matter of Matthew's brain are disorganized causing the communication pathways of the brain to be challenged, therefore causing significant impairment in his physical and cognitive abilities. Matthew is unable to walk or speak and is dependent upon his family and professionals to complete his activities of daily living. Recently, Matthew was diagnosed with Lennox Gastaut Syndrome a rare form of epilepsy. Frequently, Matthew experiences multiple types of seizures daily that are potentially fatal but are currently being managed to some degree by a constant change to his medication regimen. This past year presented more challenges for Matthew. Unfortunately he had several hospital visits to help overcome pneumonia, respiratory issues and infections. Medication options are becoming limited. Surgical Procedures have been considered. Currently, Matthew is participating in a medical study involving Epidiolex a form of Medical Marijuana. Studies have shown total elimination of seizures in patients. The family remains very optimistic. Matthew is currently enrolled at Wicklow Elementary of Sanford Florida. The facility has professionals trained in speech, occupational and physical therapies to help Matthew reach his potential. He has been limited to attending school this past year due to his health conditions. Matthew is making progress, however requires the care, special facilities, and medical attention his ongoing disabilities require. The Annual Golf Tournament Fundraiser was created to financially assist Matthew's ongoing medical needs.
