# High quality furniture handcrafted just for you

Kevin Berry and Carl Ingram explain how Bespoke Pine n Oak takes your ideas and creates beautiful furniture in the traditional way...

If you've ever struggled to find the ideal piece of furniture for your home, especially if you have any awkward alcoves, oddly-shaped rooms or sloping ceilings, you'll know how difficult it can be.

But there's a genuine solution in the handcrafted quality of Bespoke Pine n Oak in King's Lynn, which combines Kevin Berry's long experience in the timber trade together with the remarkable craftsmanship of his fellow director Carl Ingram.

"People should never settle for second best when it comes to their homes," says Kevin Berry. "Fortunately, Carl has an amazing talent for taking the vaguest of ideas and turning them into beautiful and functional pieces of furniture. The possibilities really are only limited by your imagination."

Carl Ingram is a true craftsman. Working from the simplest of sketches, he'll visit your home for exact measurements and a sense of the setting (everything from how the room is used to the lighting conditions) before creating anything from a single bookcase to a complete kitchen. Premium quality furniture that truly complements your home, fitting the space to perfection and meeting your individual requirements in every detail.

"Everything is handcrafted in our own workshops using traditional cabinet-making and carpentry skills," says Carl. "It means we still use things such as dovetail joints, mortice and tenon frames, lap joints – and though we mostly work in solid pine and oak, there are several other choices available to you."

And before Bespoke Pine n Oak return with their expert fitting and installation team, they're more than happy for you to pop in and actually see the work in progress as your new furniture takes shape.

With the arrival of the Mylands luxury paint range offering an extra touch of uniqueness and individuality, Bespoke Pine n Oak can create the furniture you've been looking for – in any style, in any shape, in any size, for any room.

In fact, as they like to say, if you can draw it, they can make it!
