

Party On!

Congressional Representation:

Research the following about California representation in the U.S. Congress. Be prepared to present your project to the class using technology as a resource in your presentation:

Select 2 U.S. Senators and 5 U.S. Representatives from Southern California and discuss:

- **Responsibilities (What are the main responsibilities of their offices?)**
- **Biographies of officials (Who are these people? What do they want to accomplish? What are their qualifications?)**
- **Terms (What are the lengths and requirements of their terms of office?)**
- **Email these officials requesting information (Provide a copy to me before you send it)**
 - **Introduction, Describe project, Request information about his/her office. Ask questions (for example: What is your position on....?, What is the biggest challenge currently facing our government?, etc...)**
