

The basic purposes of the certification program are to provide additional incentive for professional improvement in Emergency Management, to assure recognition for those who attain certain specific standards, and to lead toward development of a full professional status in the field of Emergency Management. Certification also honorably recognizes those members who have demonstrated their abilities through years of service to their state, counties, communities and Association. Persons completing the final phase of the Certified Emergency Managers program shall each receive an appropriate plaque designating them as "Mississippi Certified Emergency Manager." The designation "MCEM" may be used following the EM professional's name on correspondence, letterheads, business cards and other printed matter where it may appear so long as the EM professional has Association membership in good standing. **Loss of privilege shall occur when membership dues are not paid by June 1 of each year as stated in our Bylaws (Article XI Section IV).**

We congratulate all who have achieved and attained this status.
