

## **FLORENCE ANIMAL CLINIC**

### **FLEA/TICK POLICY**

Florence Animal Clinic is a flea and tick free zone. For the protection of our patients from infestation and diseases, Florence Animal Clinic gives all boarding, hospitalized and in-clinic patients a capstar on admission. This is a 24 hour flea pill. Pets that are on the monthly flea pill Comfortis or monthly flea/tick pill Nexgard are not given a capstar. Proof of administration/purchase is required. In clinic, if your pet is found to have ticks, a Nexgard will be administered. All of the products that are administered in clinic are billed to the owner. The boarding, walking and clinic areas are all treated routinely for fleas and ticks with products safe for the pets.
