

FRANKFURT PLEIADES STAR MAP 2

In investigating the Martian connection of the Pleiadian pattern of Frankfurt, one cannot avoid to address the origins at least in the propagation of this motif in the modern era and in all the financial powerhouses of today's World Financial Oder. This is in part the Pleiades conspiracy as this modern version of the 'Pleiadian Conspiracy' started here in Frankfurt with the Rothschild dynasty by Amschel Moses Bauer, 1743. This critique is not meant to placate all those of the said family or those that work in such financial structures or businesses and specifically not those in Frankfurt. However the argument is that those behind the family apparatus are of a cabal that is connected to the allegiance of not the true GOD of the Universe, YHVH but to the false usurper Lucifer. It is Lucifer they worship and venerate as the 'god of this world' and is the God of Mammon according to Jesus' assessment. According to research and especially based on *The 13 Bloodlines of the Illuminati* by Springmeier, the current financial domination of the world began in Frankfurt with Mayer Amschel. They were of Jewish extract but adhere more toward the Kabbalistic, Zohar, and ancient Babylonian secret mystery religion initiated by Nimrod after the Flood of Noah.

THE PLEIADES

The Bearing-Point building is triangular in shape and it amazingly also corresponds to the triangular pyramid fortress design within the Pleiades Pyramid complex on Mars. This shows that the designers of this Frankfurt alignment knew and know the exact dimensions of such structures on Mars and to what degree and headings they are even set to.

Such knowledge could not have come by normal observations from Earth but through the teachings, contact and alliance with interdimensional beings that this study suggests are the Fallen Angels of the Luciferian kind.

These are one in the same that were handed down and taught to wizards and witches by the Fallen Angels according to the book of Enoch. The Rothschild took their name from the German for the 'Red Shield' that was supposed placed outside the entrance to their first banking house. Some assert that it was a black Roman eagle but as this was the Jewish part of Frankfurt, the eagle to the Jews would be considered unclean and unapproachable to enter such a house. Most likely the red shield would have been a black hexagram upon a red shield signifying a multilevel endendre of meanings.
