

Roller Shades

Control Options

> SPRING ROLLER SYSTEM

Spring-assisted operating mechanism lifts and lowers shades with a gentle pull.

> BEADED CHAIN CLUTCH CONTROL SYSTEM

Provides smooth, easy lifting and exact shade positioning. Bead stops are positioned on the chain to prevent over-rolling. Available in white plastic or stainless steel.

> REMOTELIFT MOTORIZED SYSTEMS

Infrared (IR) – value choice that is ideal for operating individual shadings from up to 30 feet away. Requires line of sight positioning.

Radio Frequency (RF) – robust system with enhanced programming that is ideal for independent or grouped operation of multiple shadings. Remote control operates from up to 90 feet away with no line of sight required.

> TWO-ON-ONE CASSETTE VALANCE OPTION

Two independently operated shades placed side-by-side under one continuous cassette valance to accommodate wider widths. Available with the beaded chain clutch roller and RemoteLift motorized systems. Please note there is a ¼" center light gap between the two shades.

Hardware and Installation

> Roller tube – constructed of high-grade aluminum so it's stronger and more durable than traditional wood or cardboard styles. Tube sizes: 1 1/8", 1 ½", and 2".

> Roller tube brackets – easy to install in any configuration

> Cassette headrail brackets – snap-in brackets mount above the headrail and are hidden from view

> Spacer blocks, extension brackets, and hold down brackets – available for installation flexibility

> Standard hem bar – features a unique elliptical shape and is wrapped in fabric to provide a continuous decorative look

Decorative Options

> CASSETTE VALANCE OPTION

Available in two sizes to accommodate varying shade lengths, our cassette valances cover roller mechanisms and enhance the shade's overall appearance. The optional fabric insert provides a seamless look from top to bottom. The small cassette is available in white only. The large cassette is available in white, vanilla, dark brown and black.

> DECORATIVE HEM STYLES

Available in two standard and six decorative styles, sculpted hem shapes add a dimensional design element to the bottom of the shade. With the exception of our standard hem, all hem styles must be ordered with a trim. Available on most fabric styles.

> DECORATIVE TRIM OPTIONS

Decorative trims, in a variety of styles and coordinating colors, line the edges of the decorative hem designs and further enhance their appeal.

Features

> Offered in over 50 screen styles with openness factors ranging from 3% to 23% to provide just the right amount of light diffusion and UV protection

> Also available in a wide selection of blackout vinyls, decorative fabrics, and grass-like weaves – many are flame-resistant

> Two cassette valance options, with optional fabric insert, neatly hide the shade when raised

> Control options include our spring, beaded chain clutch, and RemoteLift motorized control for operating ease and convenience

> Fashionable hem and trim style options are available on most fabrics to add dimensional appeal

> Limited lifetime warranty ensures your customers' satisfaction

Fabric Styles

A wide selection of patterns and colors in the most popular designs and materials ranging from light-filtering screen patterns that enhance UV protection to decorative fabrics and tropical faux grass-like patterns offering a choice that will blend in with any decor.
