Natalya – 6th Grade

Natalya – Now

Dr. Adams is one of those teachers that I will never forget. From the moment that I walked inside of her 6th grade classroom I realized that this teacher was different. She taught with a passion that I have never seen before! Maybe it was because she was not only concerned about my education, but she actually cared about me. She provided a quality education and nurtured and protected students. Dr. Adams used her own resources and money to ensure that we received a quality education. She believed in students that most teachers would have given up on. I remember walking in her classroom feeling afraid, shy and insecure, but by the end of the school year I felt confident, smart, loved and ready to face life's challenges. I am forever grateful to Dr. Adams for not only teaching me, but believing in me, investing in me, and loving me.

Remarkable, is a word among plenty, I would use to describe the impact CAU Chapel with Dr. Adams has had on me. I was the person who already knew God for myself, but CAU Chapel and all the events put together rejuvenated my passion for Christ. It helped me to see my short comings, held me accountable, emphasized growth, and reminded me to wholeheartedly, be responsible for my life and it reflecting God's vision. Grate-

At the beginning of the school year I was a mess, I had religious roots, but thought I had strayed beyond the point of return. Under Dr. Adams guidance, I have completely turned my life around and have begun doing and performing the works of God again. I honestly don't think I would have made it back to my roots as quickly as I did if it had not been for Dr. Adams.

I consider Sherry Couch Adams a very special lady. I was one of her high school teachers in the mid '80s where it was obvious even then that she was goal oriented and had BIG aspirations. She has accomplished many of them and is still very focused. She is a wife, a mother and has strong Christian values. I am convinced that her final decisions are aligned with her spirituality. Sherry Adams is "ALRIGHT" with me in every way.

Sharon Jones
High School Teacher

Dr. Adams has always brought life and hope to everyone with her heart winning smile and warming personality. This being the case, college students who are in need, have a sense of embracing and are drawn to her for counseling and comfort. She has made a great difference on many campuses for both male and female students.
