and Chiefs of Police**

Alcohol and Crime in Wyoming - 2022

INTRODUCTION

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting substance-involved arrest data in Wyoming and publishing the results each year since 2005. Information has now been collected from a total of 250,020 persons who were arrested in the field and subsequently detained in a detention facility in Wyoming during the last seventeen years.

The extraordinary changes to everyday life brought about by the COVID-19 pandemic in 2020 and the subsequent Delta and Omicron variants in 2021 and 2022 must be considered when comparing this year's arrest statistics with previous years. It now appears that most citizens in Wyoming have begun to resume a more "normal" routine of daily activities. Wearing masks is no longer required or the norm and restrictions for large public gatherings or events are no longer in effect.

It should be noted that alcohol consumption in Wyoming has increased since the start of the pandemic. The Liquor Division of the Wyoming Department of Revenue reported an increase in liquor sales of \$32,972,170 compared to 2018.

Whether it was a result of the COVID-19 pandemic or just a continuation of the increase that was experienced in 2019 - the percentage of alcohol-involved arrests in Wyoming increased in 2020 and again in 2021 but has decreased slightly this year as citizens resumed a more "normal" routine of daily activities. Whether arrest statistics in the coming years will revert to pre-pandemic levels or will continue to maintain at the current level is yet to be determined.

The Wyoming Association of Sheriffs and Chiefs of Police publishes the results and analysis of the data-collection efforts each year in three separate reports. The main report provides statewide statistics and averages, along with comparisons of county statistics in specific categories. An accompanying supplemental report provides county, community, and local law enforcement agency specific statistics. This Executive Summary provides selected statistics and highlights from the main report. These reports can be accessed online on the following websites: <http://wascop.com> and <http://jandaconsulting.com>

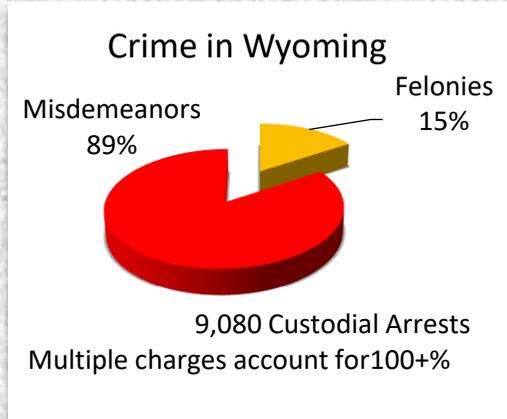

Alcohol and Crime in Wyoming - 2022

EXECUTIVE SUMMARY

The profile of the average person taken to jail in Wyoming continues to be relatively consistent with previous years. Three out of four times it was a male (females have increased incrementally in recent years), average age 37. 15% of the time it was an out-of-state visitor and 7% of the time it was an in-state visitor.

Juvenile arrests resulting in detention in a detention facility accounted for less than 1.5% of the total custodial arrests (139 out of 9,080).

A review of the data collected from the persons arrested and subsequently taken to jail in 2022 indicates that Wyoming continues to be relatively safe from what is generally considered to be “serious” crime. The number of persons who are arrested for felonies is relatively low when compared to the number of persons arrested for minor crimes (misdemeanors). ***However, felony arrests have increased incrementally in recent years and now account for 15% of the total arrests statewide.***

Although the number of alcohol-involved arrests has decreased significantly in recent years, alcohol is still the drug with the greatest impact on crime in Wyoming. Incidents of assaults, disturbances, child abuse and domestic violence all are heavily influenced by alcohol.

The statistics in Wyoming collected during the last ten years clearly indicate that the two crimes that account for the greatest number of custodial arrests are Driving Under the Influence (DUI) and Public Intoxication. Together these two crimes alone have accounted for an average of 45% of all custodial arrests in the last ten years.

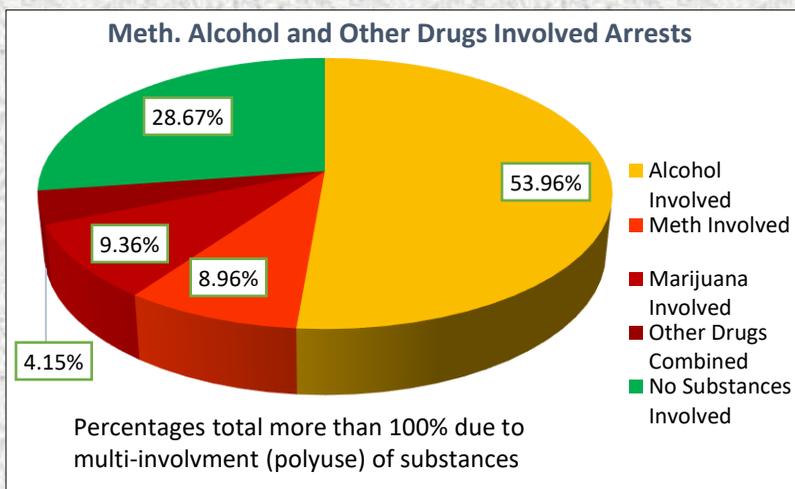

Driving Under the Influence is, unquestionably, the crime that has the greatest impact and consequence in Wyoming. It accounts for the greatest number of custodial arrests and is the cause of more deaths and serious injuries than any other crime.

Alcohol and Crime in Wyoming - 2022

Public Intoxication is viewed by some as just a public nuisance crime; however, incidents of public intoxication present real and significant threats to public safety. The average BAC for public intoxication arrests in Wyoming in 2022 was almost three times the presumptive level for impairment. Alcohol intoxication at this level often “fuels” behavior that results in more serious crimes than just disturbances and nuisances.

EMERGING TRENDS IN THE TYPE OF SUBSTANCE INVOLVED IN CRIME: Although alcohol-involved arrests continue to be the drug most often present in situations that result in someone going to jail, changing trends in the types of substance involvement in crime in Wyoming have recently emerged. The number of alcohol-involved arrests has continued to decrease - while the number and percentage of other drug-involved arrests have increased.

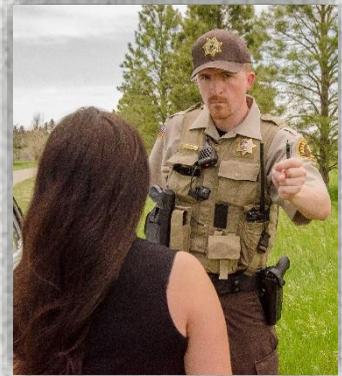

- ✦ The number of meth-involved arrests has increased each year since 2011 and has more than doubled since then. There were 845 meth-involved arrests in 2022 (there were 420 in 2011).
- ✦ The three counties with the highest number of arrests involving meth in 2021 were: 1) Fremont – 147; 2) Natrona – 135; and 3) Laramie – 93.
- ✦ Marijuana-involved arrests have decreased in number and percentage since 2017. In 2018, 2019, 2020 and 2021 the number and percentage of arrests were less than in 2017: 14% (1,957) in 2017; 12.47% (1,542) in 2018; 12.09% (1,425) in 2019; 12.98% (1,092) in 2020; and 12.26% (877) in 2021.
- ✦ The four counties with the highest number of arrests involving marijuana in 2021 were: 1) Sweetwater – 107; 2) Fremont – 106; 3) Laramie – 92; Carbon - 91.

Alcohol and Crime in Wyoming - 2022

SUMMARY OF SUBSTANCE-INVOLVED ARREST STATISTICS FOR 2021:

- Alcohol and/or other drugs were involved in 71.33% of the 9,080 custodial arrests.
- Alcohol was involved in 54% of all custodial arrests.
- Methamphetamine was involved in 8.96% of the 9,080 reported arrests.
- Marijuana was involved in 9.36% of all custodial arrests.
- Drugs were involved in 21.22% of the reported arrests.
- Arrests for public intoxication accounted for 15% of all arrests.
- The average blood alcohol content for persons arrested for public intoxication was 0.2244.
- Driving under the influence arrests accounted for 30.86% of all arrests.
- The average reported blood alcohol content for DUI arrests statewide was 0.1655.¹
- 53% of persons arrested for DUI had a reported BAC level above 0.16 and 14% had a BAC of 0.24 or greater.
- The average reported BAC for 402 persons who were arrested for DUI after being involved in a traffic crash was 0.1770.
- 16.66% of person arrested for DUI involved drugs.
- 30.34% of persons arrested for DUI had been arrested for DUI previously.

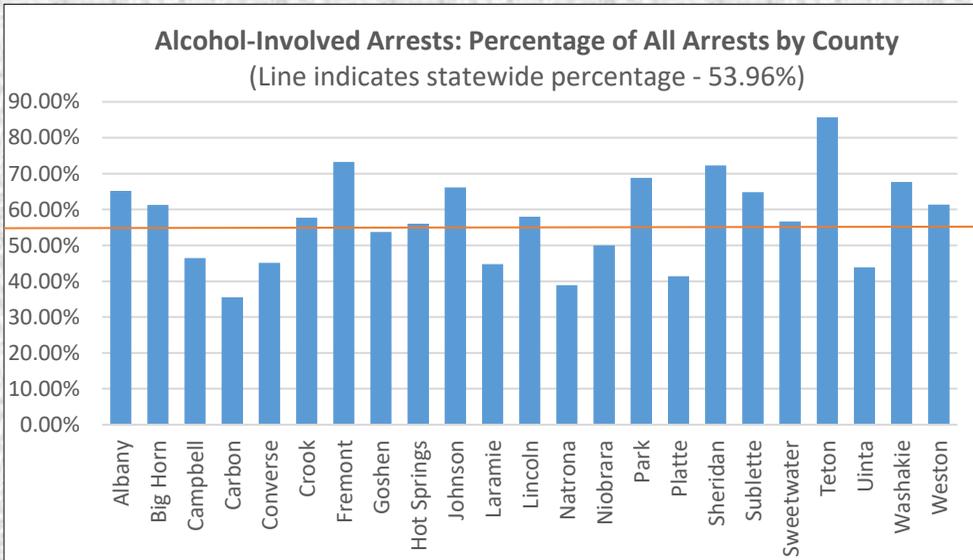

¹ In Wyoming, a person driving with a blood alcohol content of 0.08 is legally presumed to be impaired.

Alcohol and Crime in Wyoming - 2022

Substance-Involved Arrests: 2018-2022

Alcohol Involved	Meth Involved	Marijuana Involved	Drug Involved	Public Intoxication
2018 5,011	2018 1,404	2018 1,542	2018 2,776	2018 1,597
2019 5,707	2019 1,250	2019 1,425	2019 2,475	2019 1,517
2020 4,175	2020 826	2020 1,092	2020 2,034	2020 828
2021 4,060	2021 845	2021 877	2021 1,826	2021 1,136
2022 4,900	2022 814	2022 850	2022 1,927	2022 1,370

Alcohol and Crime in Wyoming - 2022

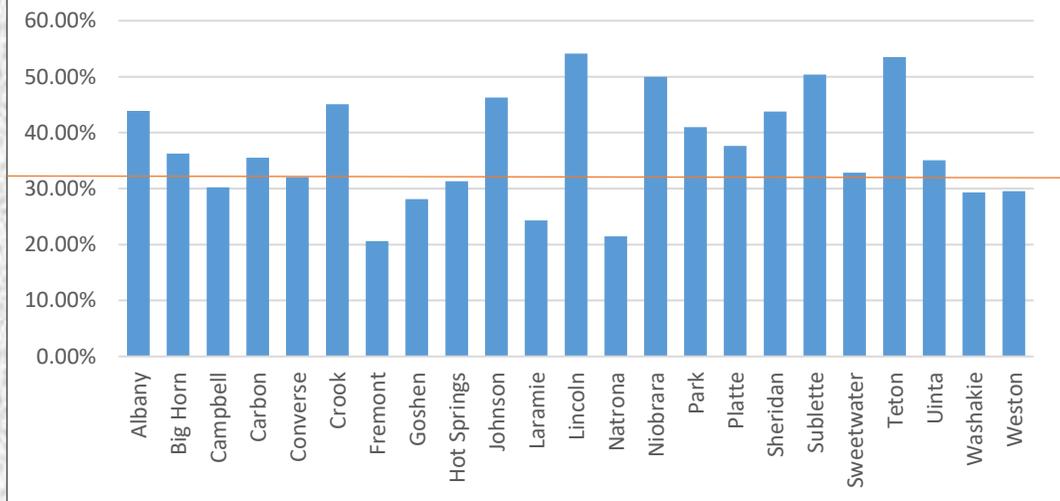

TRENDS IN ARRESTS FOR IMPAIRED DRIVING: DUI arrests account for an approximate average of 28% of all custodial arrests in Wyoming during the last ten years and a third of all traffic fatalities are the result of impaired driving.

- ✚ The statistics for persons arrested for driving while impaired mirror the recent trends for all substance-involved arrests.
- ✚ The number of persons arrested for driving impaired has decreased during the last ten years while the percentage for other drug-involvement for impaired driving arrests has increased.
- ✚ The average blood alcohol content for persons arrested for impaired driving during the last ten years remains at double the presumptive level for impairment.

(Line indicates statewide percentage - 30.86%)

Alcohol and Crime in Wyoming - 2022

Driving Under the Influence Arrests: 2018 - 2022

Number of Arrests	% of Total Arrests	Average BAC	Drugs Involved
2018 3,355	2018 27.13%	2018 .1578	2018 14.13%
2019 3,275	2019 27.78%	2019 .1564	2019 12.09%
2020 2,666	2020 33.35%	2020 .1656	2020 15.53%
2021 2,315	2021 32.36%	2021 .1639	2021 18.32%
2022 2,802	2022 30.86%	2022 .1655	2022 15.60%

Alcohol and Crime in Wyoming - 2022

PUBLIC CONCERNS

The high percentage of alcohol involved arrests, the inordinate number of arrests for public intoxication and DUI and the high levels of BAC recorded for individuals arrested for public intoxication appear to validate the concerns about alcohol abuse expressed by Wyoming residents in the most recent statewide public opinion survey².

Some excerpts from the survey that involved 4,798 Wyoming residents:

- 79.7% view alcohol abuse by Wyoming adults as a serious or somewhat serious problem.
- When Wyoming residents were asked whether they would support a state law that would prohibit selling or serving alcohol to someone who is obviously intoxicated:
 - 64.3% strongly supported such a law.
 - 17.9% somewhat supported such a law.
- 84.5% of Wyoming residents believe that drinking and driving in their community is a serious or somewhat serious problem.

SIGNIFICANT STATISTICS AND FINDINGS

Listed below are a few of the noteworthy statewide averages and county specific alcohol-related statistics and findings from the DATA/STATISTICS section of the main report.

- **Alcohol was a factor in 54% of the custodial arrests in Wyoming.**
 - Counties with significantly higher statistics:
 - Teton – 85.65%
 - Fremont – 73.28%
 - Park – 68.85%

² Wyoming Alcohol Use Issues Survey, Wyoming Survey & Analysis Center, November 2012

Alcohol and Crime in Wyoming - 2022

➤ **Methamphetamine was involved in 8.96% of the arrests statewide.**

- Counties with significantly higher number of arrests:
 - Natrona – 146
 - Fremont – 112
 - Laramie – 102

➤ **Drugs (other than alcohol) were involved in 21.22% of the reported arrests statewide.**

- Counties with significantly higher number of arrests:
 - Natrona - 280
 - Laramie – 268
 - Campbell – 210

➤ **Marijuana was involved in 9.36% of the arrests statewide.**

- Counties with significantly higher number of arrests:
 - Laramie – 107
 - Sweetwater – 97
 - Campbell and Carbon – 83

➤ **Arrests for Public Intoxication accounted for 15.09% of all arrests statewide.**

- Counties with significantly higher statistics:
 - Fremont – 430 (36.01%)
 - Laramie – 247 (16.88%)
 - Natrona – 202 (15.27%)

➤ **The average blood alcohol content for all persons arrested for public intoxication was 0.2244.**

- Counties with significantly higher statistics:
 - Hot Springs – 0.3492
 - Campbell – 0.3200
 - Converse – 0.2775

Alcohol and Crime in Wyoming - 2022

- **Driving under the influence (DUI) arrests accounted for 30.86% of all arrests statewide.**
 - Counties with significantly higher statistics:
 - Lincoln – 54.11%
 - Teton – 53.48%
 - Sublette – 50.40%
- **15.60% of the arrests for DUI involved drugs.**
 - Counties with significantly higher statistics:
 - Carbon – 34.35%
 - Uinta – 25.00%
 - Hot Springs – 21.05%
- **The average blood alcohol content (BAC) reported for 2,802 persons arrested for DUI was .01655.**
 - Counties with significantly higher statistics:
 - Goshen - 0.1914
 - Carbon – 0.1808
 - Park – 0.1778
- **The average BAC reported for 402 arrests involving traffic crashes that involved alcohol was 0.1770.**
- **53% of persons arrested for DUI had an average blood alcohol content of 0.16 or above.**
- **353 persons arrested for DUI had a BAC of 0.20 or above.**
- **177 persons arrested for DUI had a BAC of 0.24 or higher.**
- **30.34% of persons arrested for DUI had been arrested for DUI previously.**

ALCOHOL AND CRIME IN WYOMING: 2022

Executive Summary

April 2023

The Wyoming Association of Sheriffs and Chiefs of Police has been collecting and analyzing substance-involved data from persons who have been arrested and booked into county detention facilities in Wyoming since 2005. This project was managed by Johnson and Associates of Douglas, Wyoming. This report was authored by Ernest L. Johnson, Director of Services.
