

Tater Knob Snow Removal Procedures

Tater knob has one resident who serves as the Snow Removal Coordinator aka the "Snowman".

The Snowman is responsible for determining if, when, and how much snow removal is required. Home owners that are on the mountain during a snow event will call the Snowman and let him know you need service. When the Snowman determines that the roads are hazardous enough to warrant snow removal he will then contact the contractor with specific instructions on what roads will need to be cleared. Only the roads to residents that are actually present and have contacted the Snowman will be cleared. Driveways will remain the responsibility of the home owners.

JIM FABER is the current Snowman. His phone number is **678-404-9686**. His email is
