Artist Statement

Technical skill is certainly a part of my craft but I believe that the real key to creating art is to elevate it beyond pure ability or skillful use of a brush. Regardless of the subject, style or media, the one thing that ties any of my paintings or drawings together is an attempt to translate what we see as lights (and darks) into a 2 dimensional piece.

I hope that my work communicates to you and I would love to hear your thoughts or comments should you be willing to share them.

If there is an opportunity to create a working partnership together, please do not hesitate to contact me.
