

RT13

ADVANCED CARPET SHAMPOO
SCENTED

Product Description:

RT13 leaves carpets gleaming and smelling fresh with its powerful carpet cleaning solution. Use alone or with steam or carpet cleaner. It is compatible with all machines, this carpet shampoo penetrates deep into carpet fibers and upholstery to remove deep set stains and eradicate lingering smells for good. **RT13** is perfect where accidents and spillages happen frequently. Super concentrated for powerful carpet odor removal. Use RT13 for a thorough, professional clean and a fresh-smelling every time.

Typical Uses

Washing carpets and upholstery and remove deep set stains.

How to use:

Manual Cleaning:

Dilute 50ml of **RT13** for every 1 Liter of warm water.

Start by vacuuming thoroughly to remove loose debris. Spread the diluted solution on carpet, leave for 20-30 seconds. Wipe and brush over the carpet with a carpet brush to remove any trapped dirt taking care not to saturate the fibers. Rinse with water and hang to dry.

Machine Cleaning:

Add 50ml of **RT13** to every 1 Liter of warm water. Clear your space and scope out stains. Vacuum the carpet. Fill your machine with carpet shampoo and water. Allow the carpet to dry completely. Start from a corner to the wall on the other side of the room. Then turn around, move the shampooer to a new line that slightly overlaps the first, and walk back towards the wall you started at. Repeat this process across the entire room. To be sure that your carpet is thoroughly cleaned, keep cleaning the carpet until the water is clear. After drying, vacuum one last time to remove residue.
