FARM EQUIPMENT 101

Farmer to Fireman

Farmers and Ranchers and other agricultural manager's rank number seven on Forbes America's Deadliest Jobs list. With a fatality rate of 25.3 people per 100,000 full-time equivalent workers, and 260 fatalities in 2011 alone. The primary danger? Heavy machinery.

Farm Equipment 101 is going to introduce you to common equipment found on local farms. This on farm experience is going to show you first-hand how the different pieces of equipment work and the dangers that come with operating them. Equipment onsite will include combines, manure spreaders, balers, a cultivator, skid loader, and a sprayer.

Contact Becca via email to register by June 30, 2017.

This event is free of cost.
