

CAI Long Island Chapter Meeting

with an educational workshop

Speed Networking Workshop for Community Association Board Members

Speed Networking works a lot like 'Speed Dating' without the 'Dating.' The evening event will provide Community Board Members with a **structured opportunity** to meet accomplished professionals face to face, one business professional at time. Whether you are in immediate need of a service or specific vendor, or perhaps your association is interested in conducting research for a future project – this event offers the perfect occasion to **expand your contacts** and learn more on how to make your community exceptional.

This event will be led by our own Frank Socci, Jr. CPM® – NAI Long Island, who is a Past President of the Long Island Chapter and served on the Long Island Chapter Board for many years.

Our **educational workshop** will be conducted with the participation of several of our esteemed business members **from various industries** including construction, restoration, banking & finance, insurance, property management, legal, and more. So come with your questions and leave with informative answers!

Thursday, May 17th, 2018
