

# CYDONIA TEMPLES OF SUSAN

The purpose of this illustration is to consider the ancient ley-lines of one of the ancient Persian capitals where the Prophet Daniel is said to have last lived and been buried. To Daniel is revealed the entire blueprint of the world empires since after the Flood of Noah and how it would conclude before Jesus Christ's 2nd coming. Astonishing, it was given to Daniel the timeline of when Jesus' 1st coming was to occur, right down to the day. The book of Daniel is very relevant still to this day as it has not concluded nor fulfilled in what is to come, the 70th Week of Years that, according to how some interpret the 70 Weeks of Daniel, the last Week of Years is yet to be completed. To the Evangelical Christians, such believe that this timeframe will be taken up as Daniel's counterpart in the New Testament, that of John with the book of Revelation will be conclude from chapters 5 onward. Why this is so profound and important to YHVH's Spiritual People that is the Body of Christ is that Daniel was specifically told that such revelation was to be loosed for people to understand in the Last Days specifically and only then. The illustration will show that like most ancient places of royal palaces and temples of worship, the particular layout of such complexes were configured to mirror the Stars of Heaven or 'Heaven' itself. It was understood and believed that it was from the Stars that the 'gods' had come and seeded Humanity. To this end, the kings and priests of the various civilizations constructed their temples and places according to the constellations, sacred geometry and mathematics. What is amazing this that the recurring them or template comes not from Earth but from Mars.

THRONE OF DARIUS I

**APADANA**

It is believed that Daniel founded a school for such knowledge that even led to the Persian *Magi* to seek the *King of the Jews*, Jesus that Daniel foretold would come. The *Magi* were led by the *Sign of the Stars* in the certain constellations even, as it is to this day.

**Medo-Persian Empire**

There are 3 mounds in the core of the city that had the Apadana or Throne Hall. It was adjacent the 7-chamber Royal Palace that housed the various Royals, etc. This is where Esther was brought and lived. This is where the King wanted to show off Vashti the Queen but refused and order a national 'Royal Beauty Pageant' for her replacement. This is also however, where Haman lived as well and sought to destroy the Jews in one day, Purim. It was at this Throne Hall that Esther approached the King as the scepter was extended to her to save the Jews. Susa was the place where the Prophet Daniel was thrown to the Lions' Den and after YHVH sending and Angel to guard him, the enemies of YHVH's People and their families were in turn cast into the den.

The Apadana is modeled exactly after the one also built in Persepolis. It had 72 columns which has a numerical factor of 6 and a fractal of the measure of time, that of 72 degrees for 1 arch of celestial time in the Procession of the Equinox, etc. The Throne Chair was situated towards the back but in a particular spot unapparent. However, if one superimposes the Great Pyramid template that are aligned to Orion's Belt, the Great Sphinx is thus positions as the Throne Chair, as the 'Head' of the Empire, etc. Amazing, this Orion Star alignment is in line with the 7 chambers of the Royal Palace that corresponds to the Pleiades Star cluster.
