

For over 40 years the backbone of the Soverel Development companies' has been its steadfast commitment to quality. The Companies were founded by Bill Soverel in 1959 and now his son, Mark, and grandson, Bret, run the Companies' newest ventures of developing residential lakefront communities.

The heart of Sawgrass Lakes is our 100 plus acre lake, which meanders throughout our five neighborhoods with over 4 miles of shorelines. The lake is full of native Florida fish including bass, bluegill, and a multitude of baitfishes, as well as a significant population of wild fowl. We have also preserved over 130 acres of native uplands, which provide a natural buffer around the perimeter of our entire community. The preservation of 230 acres of Florida lands and lakes allow the native wild life species to live in harmony with our residents of Sawgrass Lakes, providing the ambience and tranquility that only
