The Caswell County Veterans Memorial will honor all veterans from Caswell County who served in the past, present and future, as branches of service medallions recognize. Specific names to be inscribed on this memorial are those Caswell County Veterans who lost their lives fighting wars within combat zones and POW's. Those who died as a direct result of combat are classified as Killed-in-Action (KIA). Veterans who died from other causes, during wars in combat zones overseas, are classified as "Non-Battle". "Non-Battle" deaths while in an overseas' combat zone includes death from accidental injury, illnesses, or unknown causes. Finally, a statue of a fallen soldier is a tribute to all veterans who fought for our freedoms. Please see Memorial picture above.
