Members' Choice Candidates working for change...

These candidates are strong, outspoken leaders, from various locations, shifts and jobs, who put members' interests first.

One example is...**Members' Choice candidates worked hard for nearly a year, networking with union members nationwide and getting input, to pass a membership bill of rights to prevent forced contract votes in the future. This Bill of Rights was passed on Sept. 6, 2016 and is positive change to build a stronger union for every member. It includes:**

- Contracts can only be implemented by honoring the outcome of a vote of the members;
- No contract can be re-negotiated/opened at other than expiration without a majority vote of the membership;
- The date, time and location of contract vote shall be determined by District or Local leadership, taking into account the convenience and availability of the membership to participate in the voting process;
- Once the union leadership at any level receives a request to bargain from an employer, the bargaining unit membership must be notified.
