

TIYAMIKE MULUNGU CENTER TRUST

Greetings from Bangula, just a note to share whats shakin at TMC.

How about an update of the TMC family?

Girls first: ages now:

Four 3 to 5 yrs,

Seventeen 6 to 10 yrs,

Thirty 11 to 15 yrs,

Four 16 to 19 yrs.

Boys : Six 3 to 5 yrs,

Eleven 6 to 10 yrs,

TwentySix 11 to 15 yrs

Two 16 to 17 yrs. Not to forget 27 Secondary Students at Boarding School or our three single moms little ones with us

while moms are in school

and our blessing the Caiphus family with 7 children... and and :-)

Busy times continue at Tiyamike. We have had a break from renovating since Christmas. We were behind quite a bit and as is our Fathers often way , he was waiting with funds to clear all bills. Now restarting renovation and building at the boys site which really needs it. So starting with a separate kitchen and as funds

come, upgraded housing for staff and boys. We have just completed 6 new bunk beds. Keeping with the purpose of making a more family oriented sized living/care structure. When it is as important to Holy Spirit as it is to us we plan install batteries and an Inverter for computer lab back up due to the Power companies blackouts. Ha Ha the same applies to a Secondary School. Desperately needed and we continue to learn much from having 27 Secondary Students in 8 different Secondary boarding schools. We have been in "Malawi Secondary School What Not To Do Class 101" for the last couple years!!

Whats that saying...Thru rain or shine, snow, or ice, earthquakes or floods, day or night, and and and the mail must get thru..hmmm Whoops that should be the children must be safe, loved and raised and educated !!!! Years ago and even now we could have feeding programs and handouts for relatives too impoverished to care for their own families.... What kind of life would our children have had?? We really don't want to imagine !! So all to say **thankyou for joining with us as you have**, we admire so many of you who have not visited us, who do not get to see the fruits of your help. Web site update coming to help. You are welcome to come!! We live with them and see the fruit daily if not hourly!!! Seeing these children 80- 90% having came as babies now grown so much... Where has the 14 plus years gone???

We are about 12 km from the epicenter. As far as we know this kind of cracking and collapsed house wall above, happened further south of us. 5.5 so not a big one. The crack seems to be about 8-9 inches at widest.

Earthquake: So ... what do you do when children (and some teachers) are afraid to go back in the classrooms... explain, teach, encourage ... then have classes outside.....300 kids in a stampede is not a joke.. Monday will be back to normal... we hope :-) Some minor cracking in our walls and the few seconds of shaking made it interesting to walk... Other than that no body hurt very little damage and we are thankful for that! **Thankyou Lord!!!**

Some of our boys in new shirts/shorts, lookin real fine!! There are enough shirts for all the boys!!

Some of our older girls just smiling away!!

Birthday supper for 8 with décor by Anna n Catherine our UK Gap year girls !!!
