Plans and specifications showing required off-street parking spaces, including the means of access and interior circulation, for the above uses, shall be submitted to the Building Inspector for review at the time of application for a zoning compliance permit for the erection or enlargement of a building. Required off-street parking facilities shall be located on the same lot as the principal building or on a lot within three hundred (300) feet thereof except that this distance shall not exceed one hundred fifty (150) feet for single-family and two-family dwellings. This distance specified shall be measured from the nearest point of the parking facility to the nearest point of the lot occupied by the building or use that such facility is required to serve.
- B. No parking area or parking space which exists at the time this Ordinance becomes effective or which subsequent thereto is provided for the purpose of complying with the provisions of this Ordinance shall thereafter be relinquished or reduced in any manner below the requirements established by this Ordinance, unless additional parking area or space is provided sufficient for the purpose of complying with the provisions of this Ordinance within three hundred (300) feet of the proposed or existing uses for which such parking will be available.
- C. Parking of motor vehicles in residential zones shall be limited to passenger vehicles, and not more than one commercial vehicle of the light delivery type not to exceed three-fourths (3/4) ton shall be permitted per dwelling unit.  6. Requirements for the provision of parking facilities with respect to two or more property uses of the same or different types may be satisfied if the permanent allocation of the requisite number of spaces designated is not less than the sum of individual requirements.
 7. The number of parking spaces required for land or buildings used for two or more purposes shall be the sum of the requirements for the various uses, computed in accordance with this Ordinance. Parking facilities for one use shall not be considered as providing the required parking facilities for any other use, except churches.
- G. For the purposes of determining off–street parking requirements the following units of measurement shall apply:
1. Floor Area: In the case where floor area is the unit for determining the required number of off–street parking spaces, said unit shall mean the gross floor area, except that such floor area need not include any area used for parking within the principal building and need not include any area used for incidental service storage installations of mechanical equipment, penthouses housing ventilators and heating systems, and similar uses.
 2. Places of Assembly: In stadiums, sport arenas, churches, and other places of assembly in which those in attendance occupy benches, pews, or other similar seating facilities, each eighteen (18) inches of such seating facilities shall be counted as one (1) seat. In cases where a place of assembly has both fixed seats and open assembly area, requirements shall be computed separately for each type and added together.
 3. Fractions: When units of measurement determining the number of required parking spaces result in requirement of a fractional space, any fraction up to and including one–half ($\frac{1}{2}$) shall be disregarded and fractions over one–half ($\frac{1}{2}$) shall require one (1) parking space.
 4. The minimum required off–street parking spaces shall be set forth as follows:

Section 10.2 **ADMINISTRATION.** Except where herein otherwise stated the provisions of this Ordinance shall be administered by the Building Inspector or by such deputies of his department as the Township Board may designate to enforce the provisions of this Ordinance.

Section 10.3 **DUTIES OF BUILDING INSPECTOR.** The Building Inspector shall have the power to grant zoning compliance permits and certificates of occupancy and to make inspections of buildings or premises necessary to carry out his duties in the enforcement of this Ordinance. It shall be unlawful for the Building Inspector to approve plans or issue any permits or certificates of occupancy for any excavation or construction until he has inspected such plans in detail and found them to conform with the Ordinance, nor shall the Building Inspector vary or change any terms of this Ordinance. The Building Inspector shall submit to the Planning Commission and the Township Board quarterly reports fully explaining the type and nature of uses permitted by right; the nature and extent of violations of this Ordinance; and the type and nature of non-conforming uses, buildings, and structures.

Section 10.4 **ISSUANCE OF ZONING COMPLIANCE PERMITS.** No building or structure, or part thereof, shall hereafter be located, erected, constructed, altered, converted, or enlarged or moved, nor shall any change be made in the use of any building, structure, or land without a zoning compliance permit having been obtained from the Building Inspector for such building, structure, or land. A zoning compliance application shall be submitted to the Building Inspector. The Building Inspector shall require that all applications for zoning compliance permits shall be accompanied by plans and specifications including a plat plan in duplicate drawn to scale. The Building Inspector shall retain the original copy for his files. Whenever the buildings, structures, and uses as set forth in the application are in conformity with the provisions of this Ordinance, the Building Inspector shall issue the applicant a zoning compliance permit within five (5) days of the filing thereof. Where action of the Board of Appeals or the Planning Commission is required in any case as set forth in the Ordinance, the Building Inspector shall issue such permit promptly following such action.

Section 10.5 **ISSUANCE OF CERTIFICATE OF OCCUPANCY.** No building or structure, or part thereof, shall be occupied by or for any use for which a zoning compliance permit is required by this Ordinance unless and until a certificate of occupancy shall have been issued for such use.

A certificate of occupancy shall be issued by the Building Inspector within three (3) days after receipt of such application if it is found that the building or structure, or part thereof, is in accordance with the provisions of this Ordinance.

Section 10.6 **VOIDING OF CERTIFICATE OF OCCUPANCY.** Any certificate of occupancy granted under this Ordinance shall become null and void if such use, buildings, or structure for which said certificate was issued are found by the Building Inspector to be in violation of this Ordinance. The Building Inspector upon finding such violation shall immediately notify the Township Board of said violation and voiding of the certificate of occupancy.

Section 10.7 **FEES, CHARGES, AND EXPENSES.** No permit, certificate, conditional use on approval, or variance shall be issued unless or until such costs, charges, fees, or expenses required in this Ordinance or other Township Ordinances have been paid in full, nor shall any action be taken on proceedings before the Board of Appeals, unless or until preliminary charges and fees have been paid in full. A listing of all fees and charges for permits shall be posted in the township office located in the Township Hall, 2388 Eaton Rapids Road, Albion.

Section 10.8 **VIOLATIONS AND PENALTIES: NUISANCE PER SE: ABATEMENT.** Use of land and dwellings, buildings, or structure, including tents and trailer coaches, uses erected, altered, razed or converted in violation of any provision of this Ordinance are hereby declared to be a nuisance per se. The court shall order such nuisance abated and the owner and/or agent in charge of such dwelling, building, structure, tent, trailer coach or land shall be adjudged guilty of maintaining a nuisance per se. Anyone violating any of the provisions of this Ordinance shall upon conviction thereof be subject to a fine of not more than five hundred (\$500) dollars and the costs of prosecution thereof, by imprisonment in the County Jail for a period not to exceed ninety (90) days, or both. Each day that a violation is permitted to exist shall constitute a separate offense. The imposition of any sentence shall not exempt the offender from compliance with the regulations of this Ordinance.

**ARTICLE XI
BOARD OF APPEALS**

Section 11.1 **BOARD OF APPEALS ESTABLISHED.** There is hereby established a Board of Appeals, which shall perform its duties and exercise its powers as provided in Act 184 of the Public Acts of 1943, as amended, in such a way that the objectives of this Ordinance shall be observed, the public health and safety secured, and substantial justice done.

Section 11.2 **DUTIES OF THE BOARD OF APPEALS.** The Board of Appeals shall hear and decide only such matters as the Board of Appeals is specifically authorized to pass on as provided in this Ordinance including but not limited to appeals made from administrative officials, dimensional variances, parking and loading variances, and interpretation of the Zoning Map boundaries.

Section 11.3 **VARIANCE.** A variance from the terms of this Ordinance shall not be granted by the Board of Appeals unless and until:

- A. A written application for a variance is submitted, demonstrating:
 - 1. That special conditions and circumstances exist which are peculiar to the land, structure, or buildings involved and which are not applicable to other lands, structures, or buildings in the same district.
 - 2. That literal interpretation of the provisions of this Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of this Ordinance.
 - 3. That the special conditions and circumstances do not result from the actions of the applicant.
 - 4. That granting the variance requested will not confer on the applicant any special privilege that is denied by this Ordinance to other lands, structures, or buildings in the same district.
 - 5. That no nonconforming use of neighboring lands, structures, or buildings in the same district, and no permitted use of lands, structures, or buildings in other districts shall be considered grounds for the issuance of a variance.
- B. The Board of Appeals shall make findings that the requirements of the Ordinance have been met by the applicant for a variance.
- C. The Board of Appeals shall further make a finding that the reasons set forth in the application justify the granting of the variance, and the variance is the minimum variance that will make possible the reasonable use of the land, building, or structure.
- D. The Board of Appeals shall further make a finding that the granting of the variance will be in harmony with the general purpose and intent of this Ordinance, and will not be injurious to the neighborhood, or otherwise detrimental to the public welfare.

- E. In granting any variance, the Board of Appeals may prescribe appropriate conditions and safeguards in conformity with this Ordinance. Violations of such conditions and safeguards, when made a part of the terms under which the variance is granted, shall be deemed a violation of this Ordinance and punishable under Section 10.8 of this Ordinance.

Section 11.4 VOIDING OF AND RE-APPLICATION FOR VARIANCE. The following provisions shall apply:

- A. Each variance granted under the provisions of this Ordinance shall become null and void unless:
 - 1. The construction authorized by such variance or permit has been commenced within one hundred and eighty (180) days after the granting of such variance and pursued diligently to completion; or
 - 2. The occupancy of land or buildings authorized by such variance has taken place within one hundred and eighty (180) days after the granting of such variance.
- B. No application for a variance which has been denied wholly or in part by the Board of Appeals shall be resubmitted for a period of three hundred and sixty-five (365) days from such denial, except on grounds of new evidence or proof of changed conditions found by the Board of Appeals to be valid.

Section 11.5 APPEALS TO THE BOARD OF APPEALS. The following provisions shall apply.

- A. Appeals, How Taken: Appeals from the ruling of the Building Inspector or the Township Board concerning the enforcement of the provisions of this Ordinance may be made to the Board of Appeals within such time as shall be prescribed by the Board of Appeals by general rule, by the filing with the officer from whom the appeal is taken who shall forth with transmit to the Board of Appeals all the papers constituting the record upon which the action appealed from was taken.
- B. Who May Appeal: Appeals to the Board of Appeals may be taken by any person aggrieved or by any officer, department, board, agency, or bureau of the Township, County, or State.
- C. Fee for Appeal: A fee prescribed by the Township Board shall be paid to the Township Clerk at the time of filing the notice of appeal which the Board of Appeals shall pay over, within thirty (30) days after deciding any appeal, to the General Fund of the Township.
- D. Effect on Appeal; Restraining Order: An appeal stays all proceedings in furtherance of the action appealed from unless the officer from whom the appeal shall have been filed with him, that by reason of facts stated in the certificate, a stay would in his opinion cause imminent peril to life or property, in which case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the Board of Appeals or by the Circuit Court, on application, on notice to the officer from whom the appeal is taken and on due cause shown.

- E. Hearing by the Appeals; Request; Notice; Hearing: When a request for appeals has been filed in proper form with the Board of Appeals, the Board of Appeals Secretary, or Township Clerk shall immediately place the said request for appeal upon the calendar for hearing, and cause notice, stating the time, place, and object of the hearing to be served personally or by registered return receipt mail at least ten (10) days prior to the date of such hearing, upon the party or parties making the request for appeal.
- F. Representation of Hearing: Upon the hearing, any party or parties may appear in person or by agent or by attorney.
- G. Decisions of the Board of Appeals and Appeals to the Circuit Court: The Board of Appeals shall decide upon all matters appealed from within a reasonable time and may reverse or affirm wholly or partly, or may modify the order, requirement, decision or determination appealed from and shall make such order, requirement, decision or determination as in its opinion ought to be made in the premises and to that end shall have all the powers of the Building Inspector or Township Board from whom the appeal is taken. The Board of Appeals' decision of such appeals shall be in the form of a resolution containing a full record of the findings and determination of the Board of Appeals in each particular case. Any person having an interest affected by such resolution shall have the right to appeal to the Circuit Court on question of law and fact.
