

NCRTAC Subcommittee: Definitive Care

Date: 7/28/16

Present: Jason Keffeler, Dr. Trina Daniels, and Terry Nichols

Recorder: Terry Nichols

Position Statement on Initial Open Fractures Guidance approved at 7/28 General Meeting.

Reviewed draft Position Statement on TXA

- Originally, thought could be for all paramedics but since need CC training, is meant for Level III & IV hospitals to initiate it promptly if/when able.
- Suggestions made; Terry will email revised draft and after group's input.
- Will work towards obtaining TMD's input from Aspirus & MSJH prior to next meeting so draft can hopefully be shared at the September General Meeting.
