SNEAKY CHEF NO-NUT BUTTER

About Us

- ~ 15 Million Americans: have food allergies*
- ~ 60 Million Americans: are estimated to be impacted by food allergies (food allergy sufferer + their circle affected: family, friends, classmates, schoolmates)
- Incidence of food allergies amongst children is skyrocketing +50% in just 4 years (2011 vs 2007)*
- Nut allergies are the most common food allergy, with peanuts the most deadly
- Schools, day care, camps are going nut-free as a result
- Soy is one of the top 8 allergens
- Today's peanut butter alternatives don't taste anything like the 'real thing'
