VICE PRESIDENTS LETTER

2017 SHOW REPORT

The show this year was a success as far as exhibitors and weather but the gate receipts were down, maybe the weather was too good and people did other outdoor activities. I want to thank everyone who came and displayed their engines and tractors. Spectators come to see the engines and tractors and other activities. The more we have the better received it is. I also want to thank everyone who volunteered in setting the show up, working during the show and the teardown afterwards. As show chairman I appreciate that and it makes my job a lot easier when I know we will have the volunteers to do the work.

Thanks again.

Jim Mager after being president for 15 plus years has decided to step down at the end of the elected year. Thank you Jim for all your efforts and leadership during these past years.,I know you have given a lot of your time to make this club a continuing success. As Vice President I am willing to stand for the presidents position. This will leave the Vice Presidents position open. Hopefully someone will step up and volunteer to be the vice president. For my self being a officer of the club has been very fulfilling and enjoyable. I don't take it as work but instead an enjoyable use of my time to promote various functions of the club and promoting our activities. Please consider this opportunity to be an officer of the club. Thank You

Gary Covert

Apache Junction Show, March 2017

If anyone complained about the show in Apache Junction, that would be the same person that would complain about being hung with a new rope.

This was the best show we had in years and the weather was ideal, the "President" said to bring out your engines and out they came: rare, common, big and small, all chugging away.

I think Henry would be hard pressed to tell his "Model T's" from Rolls Royce's and so many were present, just beautiful old cars.

Not to be out done by the engine and car folks, the tractor collectors met the challenge and cleaned out their barns with anything that would run.

A couple asked me how the silent auction was run, I said it goes like this: some years ago a man and his wife was viewing the silent auction and the husband exclaimed with a loud voice wow! Look at that, his wife asked what is it? He replied, I'm not sure, but I'm going to buy it, besides I can double my money on it. So he buys it, takes it home and puts it on "his" shelf for a number of years. Then he decides to put it on "bob's" auction and sells it. His wife asked him, "honey did you make money on it", and his reply 'enough to take you out to dinner". She nods her head and gives him a big smile. What he doesn't say is that dinner is going to a hamburger. So it goes.

The lawnmower race cars are exciting and fast but not as fast as the date for the next year's show. Until then, stay healthy and keep those wheels turning, Oh yes on more thing, save money for next year's silent auction. Gene DeCamp
