

RE: H & L Heating and Cooling, Inc.
8127 Boonesboro Rd.
North Fort Myers, FL 33917

January 15, 2015

To Whom It May Concern:

Hector Rodriguez of H & L Heating and Cooling worked as a subcontractor to Chris-Tel Construction on our recent project, The Landings at East Pointe (formerly known as Sabal Palm Apartments) and just completed work on Eastern Metal Supply, both in Fort Myers.

The Landings project was both complex and had an extremely tight construction schedule. Hector was on top of maintaining their schedule and advanced the schedule when needed. H & L Heating and Cooling installed sixty-three (63) residential units and completed all associated without an issues.

Additionally, on Eastern Metal Supply project, H&L installed three (3), ten (10) ton units, four (4) gang restrooms, two (2) plant area restrooms and all exhaust fans and louvers for the entire 172,000 SF plant.

On behalf of Chris-Tel Construction, we wish to take this opportunity to thank Hector Rodriguez for the very professional work he has done for our company. The quality of work performed was always top notch. H & L was always informative on what could be done, and how to keep the best end product in mind throughout the project. The general attitude of their organization and their employees has always been friendly and helpful, no matter what the situation.

The above mentioned projects were completed in a timely fashion and to the satisfaction of all parties. I would have no hesitation in working with this firm again or recommending this firm to other for any of your heating and cooling commercial project requirements. Please feel free to contact me, should you require any additional information on H & L Heating and Cooling.

Sincerely,

Francis Burman, Project Manager
