

ASCE Geo-Institute Hawaii Section Chapter Half-Day Geotechnical Seminar

By: Dr. Bengt H. Fellenius

The Geo-Institute Hawaii Chapter of ASCE is pleased to announce an upcoming half-day seminar by Dr. Bengt H. Fellenius.

Speaker: Dr. Fellenius, Professor of Civil Engineering at the University of Ottawa from 1979 through 1998, is an internationally recognized authority in the field of soil mechanics and foundation engineering, and, in particular, in deep foundations. He has gained a wealth of practical experience during more than 50 years of work at home and overseas through a variety of assignments that encompass foundation, embankment, and soil improvement design for water and sewage treatment plants, industrial plants, as well as bridges, highway, and airport projects, and marine structures and urban area development projects; some of which he has written up in 300+ technical journal and conference papers, articles, books, and book chapters.

Session I: Basic principles of pile analysis of load transfer and deformation, movement, and settlement.

Session II: Pile group behavior and analysis including downdrag.

Session III: Requirements in various codes and standards for design of shallow and deep foundations.
