

WICHITA TOY TRAIN MUSEUM

130 S Laura St
Wichita, KS 67211

The Wichita Toy Train Club and Museum is a 501(c)3 non-profit corporation. The Wichita Toy Train Museum is operated by the Wichita Toy Train Club (W TTC). It is a family museum with hands on exhibits.

The purpose of the Museum is for family entertainment and to be educational for all ages. Visitors ask questions about the different trains, share stories of playing with a toy train and traveling in a train. The museum offers reconnection by exposing visitors to sights and sounds of the hobby.

In 1986 a modular O Gauge layout was built and has been displayed at temporary locations, train shows, and now at the Museum. This old layout has reached the end of its useful life.

A new permanent O Gauge Layout is planned to be built replacing the modular layout. The estimated cost of the new layout is \$17,000 for materials and equipment; all labor to construct it will be donated by members.

The Club is seeking donations to support its construction. Donation of any amount will be appreciated. Designated donations may be made as follows:

1. Billboard: \$50-\$100; Highway type billboard for your business (maximum of 10 billboards)
2. Business Building: \$500 minimum; A building of your business
3. Yardmaster: \$1,000 minimum

All donors of \$500 or more will receive recognition on a plaque to be affixed to the layout. For more information contact Lou Perrier, 316-729-9086, lperrier@sbcglobal.net
