

**Sue Kerr:**

**I studied at Art Center College of Design, graduated from Salem State University with a major in 3D design.**

**I have lived in Bradenton for the past 11 years.**

**I've always needed to make things whatever the medium.**

**The first time I touched clay, I knew it was for me, it just felt right.**

**With clay there is always something to learn, I enjoy each step from conception to completion.**

**I strive for simple lighthearted, and whimsical design.**

**If the viewer sees something else, I am delighted.**
