Fabric Conditioner Additive - Concentrate

Subtly perfumed concentrated liquid fabric conditioner. Particularly suitable for conditioning wool, silk and other delicates. It has an antistatic effect and leaves fabrics unbeatably soft.

It has a superb odor neutralizing technology that eliminates residual odors which may linger after laundering. Multi-layered fragrance to add a touch of luxury to fabrics. Fabric Conditioner was developed to offer rich scent profiles and deliver outstanding softness. It is typically dispensed into the final rinse step of the wash cycle.

It is recommended dividing the laundry according to the following levels of dirt: light, medium and heavily soiled. The recommended dosage is 10 - 20 g/kg of dry laundry.

The concentrations are determined based on the specific needs.

Key properties

- ✓ For use in automatic laundry washing machines
- ✓ Suitable for all kinds of fabric
